Where a Party, on the basis of objective documented information, experiences a failure by the other Party to provide administrative cooperation and/or verify the existence of irregularities or fraud under this Chapter, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purposes of this Article, failure to provide administrative cooperation in investigating customs irregularities or fraud shall mean, *inter alia*:

- (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
- (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
- (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purposes of this Article, a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:

- (a) The Party which has, on the basis of objective information, made a finding of failure to provide administrative cooperation and/or of irregularities or fraud stemming from the other Party shall, without undue delay, notify the Trade Committee of its finding together with the objective information and enter into consultations within the Trade Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution which is acceptable to both Parties. During the period of consultations referred to above, the product(s) concerned shall enjoy the preferential treatment.

(b) Where the Parties have entered into consultations within the Trade Committee as referred to in point (a) and have failed to agree on an acceptable solution within three months of the first meeting of the Trade Committee, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. Such temporary suspension shall be notified to the Trade Committee without undue delay.

(c) Temporary suspensions under this Article shall be limited to what is necessary to protect the financial interests of the Party concerned. Each temporary suspension shall not exceed six months. However, a temporary suspension may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Trade Committee. They shall be subject to periodic consultations within the Trade Committee, in particular with a view to their termination as soon as the conditions for their application cease to exist.

5. At the same time as the notification to the Trade Committee under paragraph 4(a) of this Article, the Party concerned should publish a notice to importers in its sources of official information. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 38

Management of administrative errors

In the event of error by the competent authorities in the proper management of the preferential system at export, and in particular in the application of the provisions of the Protocol to this Agreement concerning the definition of originating products and methods of administrative cooperation, where this error leads to consequences in terms of import duties, the Party facing such consequences may request that the Trade Committee examine the possibility of adopting any appropriate measure with a view to resolving the situation.

Article 39

Agreements with other countries

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier traffic except insofar as they conflict with trade arrangements provided for in this Agreement.

2. Consultations between the Parties shall take place within the Trade Committee concerning agreements establishing customs unions, free trade areas or arrangements for frontier traffic and, where requested, on other major issues relating to their respective trade policies with third countries. Ukraine may apply a safeguard measure in the form of a higher import duty on passenger cars originating⁽²⁾ in the EU Party under tariff heading 8703 (hereinafter referred to as the "product"), as defined in Article 45 of this Agreement, in accordance with the provisions of this Section, if each of the following conditions is met:
 - (a) if, as a result of the reduction or elimination of a customs duty under this Agreement, the product is being imported into the territory of Ukraine in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause serious injury to a domestic industry producing a like product;

⁽¹⁾ For the purposes of this Article, the determination of developing country shall take into consideration the lists issued by international organisations such as the World Bank, the Organisation for Economic Co-operation and Development (hereinafter referred to as the "OECD") or the International Monetary Fund (hereinafter referred to as the "IMF"), etc.

⁽²⁾ According to the definition of origin laid down in Protocol 1 to this Agreement concerning the definition of the concept of "originating products" and methods of administrative cooperation.

2. The duty under paragraph 1 of this Article shall not exceed the lesser of the prevailing MFN applied rate, or the MFN applied rate of duty in effect on the day immediately preceding the date this Agreement enters into force, or the tariff rate set out in the Schedule of Ukraine in Annex II to this Agreement. The duty can only be applied for the remainder of that year, as defined in Annex II to this Agreement.

3. Without prejudice to paragraph 2 of this Article, the duties Ukraine applies under paragraph 1 of this Article shall be set according to the Schedule of Ukraine in Annex II to this Agreement.

To this end, Ukraine shall, as soon as possible, provide written notification to the EU Party of its intention to apply such a measure and provide all the pertinent information, including the volume (in units) of imports of the product, the total volume (in units) of imports of passenger cars of any source and the new registrations of passenger cars in Ukraine for the period referred to in paragraph 1 of this Article. Ukraine shall invite the EU Party for consultations as far in advance of taking such measure as practicable in order to discuss this information. No measure shall be adopted for 30 days following the invitation for consultations.

6. 7. Ukraine shall immediately notify the EU Party in writing of the initiation of an investigation as described in paragraph 6 of this Article.

8. During the investigation Ukraine shall comply with the requirements of Article 4.2(a) and (b) of the Agreement on Safeguards and to this end, Article 4.2(a) and (b) of the Agreement on Safeguards is incorporated into and made part of this Agreement, *mutatis mutandis*.

10. The investigation shall also evaluate all known factors, other than increased preferential imports under this Agreement, that at the same time may be causing injury to the domestic industry. Increased imports of a product originating in the EU Party shall not be considered to be the result of the elimination or reduction of a customs duty, if imports of the same product from other sources have increased to a comparable extent.

11. Ukraine shall inform the EU Party and all other interested parties in writing of the findings and reasoned conclusions of the investigation well in advance of the consultations referred to in paragraph 5 of this Article with a view to reviewing the information arising from the investigation and exchanging views on the proposed measures during the consultations.

- (b) a measure under Article XIX of GATT 1994 and the Agreement on Safeguards.

Section 4

Anti-dumping and countervailing measures

Article 46

General provisions

1. The Parties confirm their rights and obligations under Article VI of GATT 1994, the Agreement on Implementation of Article VI of GATT 1994, contained in Annex 1A to the WTO Agreement (hereinafter referred to as the "Anti-Dumping Agreement") and the Agreement on Subsidies and Countervailing Measures, contained in Annex 1A to the WTO Agreement (hereinafter referred to as the "SCM Agreement").

2. The preferential rules of origin established under Chapter 1 (National Treatment and Market Access for Goods) of Title IV of this Agreement shall not apply to this Section.

1. The Parties agree that anti-dumping and countervailing measures should be used in full compliance with the requirements under the Anti-Dumping Agreement and the SCM Agreement respectively and should be based on a fair and transparent system.

2. After receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and no later than 15 days before initiating an investigation, the Party shall provide written notification to the other Party of receipt of the application.

3. Without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement, the Parties shall ensure, immediately after the imposition of provisional measures, if any, and before final determination is made, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures. Disclosure shall be made in writing and allow interested parties sufficient time to make their comments. After final disclosure, interested parties shall be given at least 10 days to make their comments.

4. Provided it does not unnecessarily delay the conduct of the investigation and in accordance with a Party's internal legislation concerning investigation procedures, each interested party shall be granted the possibility to be heard in order to express its views during anti-dumping and anti-subsidy investigations.

Article 48

Article 49

Lesser duty rule

2. ⁽¹⁾ In particular Decision No 768/2008/EC of the European Parliament and of the Council of 9 July 2008 on a common framework for the marketing of products, and repealing Council Decision 93/465/EEC and Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products and repealing Regulation (EEC) No 339/93.

It is intended that the ACAA will ultimately be extended to cover all the sectors listed in Annex III to this Agreement, in accordance with the aforementioned procedure.

4. Once the sectors on the list have been covered by the ACAA, the Parties, by mutual agreement and in accordance with the procedure for amending this Agreement, undertake to consider extending its scope to cover other industrial sectors.

For this purpose, such labelling or marking requirements shall not be more trade-restrictive than necessary to fulfil a legitimate objective, taking account of the risks that non-fulfilment would create.

2. In particular, regarding mandatory marking or labelling, the Parties agree that:

- (a) they will endeavour to minimise their requirements for marking or labelling, except as required for the adoption of the EU *acquis* in this area and for marking and labelling for the protection of health, safety, or the environment, or for other reasonable public policy purposes;

- (e) Access accorded under the provisions of this Article relates only to the service activity which is the subject of the contract; it does not confer entitlement to use the professional title of the Party where the service is provided.;

⁽¹⁾ Where the degree or qualification has not been obtained in the Party where the service is supplied, that Party may evaluate whether this is equivalent to a university degree required in its territory.

- (f) Other discriminatory limitations, including on the number of natural persons in the form of economic needs tests, which are specified in Annexes XVI-C and XVI-F to this Agreement on reservations on contractual service suppliers and independent professionals.

Section 5

Regulatory framework

Sub-section 1

Domestic regulation

Article 103

Scope and definitions

1. The following disciplines apply to measures by the Parties relating to licensing that affect:
 - (a) cross-border supply of services;
 - (b) establishment in their territory of legal and natural persons defined in Article 86 of this Agreement; or
 - (c) temporary stay in their territory of categories of natural persons defined in Article 86(17) to (21) of this Agreement.
2. In the case of cross-border supply of services, these disciplines shall only apply to sectors for which the Party has undertaken specific commitments and to the extent that these specific commitments apply. In the case of establishment, these disciplines shall not apply to sectors to the extent that a reservation is listed in accordance with Annexes XVI-A and XVI-D to this Agreement. In the case of temporary stay of natural persons, these disciplines shall not apply to sectors for which a reservation is listed in accordance with Annexes XVI-C and XVI-F to this Agreement.
3. These disciplines do not apply to measures to the extent that they constitute limitations subject to scheduling under Articles 88, 93 and 94 of this Agreement.
4. For the purposes of this Section:
 - (a) "Licensing" means the process through which a service supplier or an investor is in effect required to take steps in order to obtain from a competent authority a decision concerning the authorisation to supply a service, including through establishment, or concerning the authorisation to establish in an economic activity other than services, including a decision to amend or renew such authorisation.
 - (b) "Competent authority" means any central, regional or local government and authority or non-governmental body in the exercise of powers delegated by central or regional or local governments or authorities, which takes a decision concerning licensing.
 - (c) "Licensing procedures" shall mean the procedures to be followed as a part of licensing.

Article 104

Conditions for licensing

1. Licensing shall be based on criteria which preclude the competent authorities from exercising their power of assessment in an arbitrary manner.
2. The criteria referred to in paragraph 1 of this Article shall be:
 - (a) proportionate to a legitimate public policy objective;
 - (b) clear and unambiguous;
 - (c) objective;

(d) pre-established;

(e) made public in advance;

(f) transparent and accessible.

3. A licence shall be granted as soon as it is established, in the light of an appropriate examination, that the conditions for obtaining a licence have been met.

4. Article 286 of this Agreement shall apply to provisions of this Chapter.

5. Where the number of licences available for a given activity is limited because of the scarcity of available natural resources or technical capacity, the Parties shall apply a selection procedure to potential candidates which provides full guarantees of impartiality and transparency, including, in particular, adequate publicity about the launch, conduct and completion of the procedure.

6. Subject to the provisions specified by this Article, in establishing the rules for the selection procedure, the Parties may take into account legitimate public policy objectives, including considerations of health, safety, the protection of the environment and preservation of cultural heritage.

Article 105

Licensing procedures

1. Licensing procedures and formalities shall be clear, made public in advance and be such as to provide the applicants with a guarantee that their application will be dealt with objectively and impartially.

2. Licensing procedures and formalities shall be as simple as possible and shall not unduly complicate or delay the provision of the service. Any licensing fees⁽¹⁾ which the applicants may incur as a result of their application shall be reasonable and proportionate to the cost of the licensing procedures in question.

3. Licensing procedures and formalities shall provide applicants with a guarantee that their application will be processed within a reasonable period which is made public in advance. The period shall run only from the time when all documentation has been received by the competent authorities. When justified by the complexity of the issue, the time period may be extended, by the competent authority, for a reasonable time. The extension and its duration shall be duly motivated and shall be notified to the applicant before the original period has expired.

4. In the case of an incomplete application, the applicant shall be informed as quickly as possible of the need to supply any additional documentation. In this case, the period referred to in paragraph 3 of this Article may be suspended by the competent authorities, until all documentation has been received by the competent authorities.

5. If an application for a licence is rejected, the applicant should be informed without undue delay. In principle, the applicant shall, upon request, be informed of the reasons for rejection of the application and of the timeframe for an appeal against the decision.

Sub-section 2

Provisions of general application

Article 106

Mutual recognition

1. Nothing in this Chapter shall prevent a Party from requiring that natural persons must possess the necessary qualifications and/or professional experience specified in the territory where the service is supplied, for the sector of activity concerned.

⁽¹⁾ Licensing fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

2. The Parties shall encourage the relevant professional bodies in their respective territories to provide recommendations on mutual recognition to the Trade Committee, for the purpose of fulfilment, in whole or in part, by investors and service suppliers of the criteria applied by each Party for the authorisation, licensing, operation and certification of investors and service suppliers and, in particular, professional services.

3. On receipt of a recommendation as referred to in paragraph 2 of this Article, the Trade Committee shall, within a reasonable time, review the recommendation with a view to determining whether it is consistent with this Agreement.

4. When, in conformity with the procedure set out in paragraph 3 of this Article, a recommendation as referred to in paragraph 2 of this Article has been found to be consistent with this Agreement and there is a sufficient level of correspondence between the relevant regulations of the Parties, the Parties shall, with a view to implementing that recommendation, negotiate, through their competent authorities, an agreement on the mutual recognition of requirements, qualifications, licences and other regulations.

5. Any such agreement shall be in conformity with the relevant provisions of the WTO Agreement and, in particular, Article VII of the GATS.

Article 107

Transparency and disclosure of confidential information

1. Each Party shall respond promptly to all requests by the other Party for specific information on any of its measures of general application or international agreements which pertain to or affect this Agreement. Each Party shall also establish one or more enquiry points to provide specific information to investors and services suppliers of the other Party, upon request, on all such matters. The Parties shall notify each other of their enquiry points within three months of entry into force of this Agreement. Enquiry points need not be depositories of laws and regulations.

2. Nothing in this Agreement shall require any Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest or which would prejudice legitimate commercial interests of particular enterprises, whether public or private.

Sub-section 3

Computer services

Article 108

Understanding on computer services

1. To the extent that trade in computer services is liberalised in accordance with Sections 2, 3 and 4 of this Chapter and taking into account the fact that computer and related services enable the provision of other services by both electronic and other means, the Parties shall distinguish between an enabling service and the content or core services that is being delivered electronically in such a way that the content or core service is not classified as a computer and related service, as defined in paragraph 2 of this Article.

2. Computer and related services shall mean services defined in the United Nations Code CPC 84 including both basic services and functions or combinations of basic services, regardless of whether they are delivered via a network, including the Internet.

Basic services are all services that provide:

- (a) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems; or
- (b) computer programs defined as the set of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, and management or use of or for computer programs; or

- (c) data processing, data storage, data hosting or database services; or

Sub-section 4

Postal and courier services

Article 109

Scope and definitions

1. This Sub-section sets out the principles of the regulatory framework for all postal and courier services liberalised in accordance with Sections 2, 3 and 4 of this Chapter.
2. For the purpose of this Sub-section and of Sections 2, 3 and 4 of this Chapter:
 - (a) a "licence" means an authorisation, granted to an individual supplier by a regulatory authority, which is required before carrying out the activity of supplying a given service;
 - (b) "universal service" means the permanent provision of a postal service of specified quality at all points in the territory of a Party at affordable prices for all users.

Article 110

Prevention of anti-competitive practices in the postal and courier sector

Appropriate measures shall be maintained or introduced for the purpose of preventing suppliers who, alone or together, have the ability to affect materially the terms of participation (having regard to price and supply) in the relevant market for postal and courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

Article 111

Universal service

Any Party has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Party.

Article 112

Licences

1. Three years after the entry into force of this Agreement, a licence may only be required for services which are within the scope of the universal service.
2. Where a licence is required, the following shall be made publicly available:
 - (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
 - (b) the terms and conditions of licences.
3. The reasons for denial of a licence shall be made known to the applicant upon request and an appeal procedure through an independent body will be established by each Party. Such a procedure will be transparent, non-discriminatory, and based on objective criteria.

*Article 113***Independence of the regulatory body**

The regulatory body shall be legally separate from and not accountable to any supplier of postal and courier services. The decisions of and the procedures used by the regulatory body shall be impartial with respect to all market participants.

*Article 114***Regulatory approximation**

1. The Parties recognise the importance of the approximation of Ukraine's existing legislation to that of the European Union. Ukraine shall ensure that its existing laws and future legislation will be gradually made compatible with the EU *acquis*.
2. Such approximation will start on the date of signing of this Agreement, and will gradually extend to all the elements of the EU *acquis* referred to in Annex XVII to this Agreement.

Sub-section 5

Electronic communications*Article 115***Scope and definitions**

1. This Sub-section sets out the principles of the regulatory framework for all electronic communication services liberalised pursuant to Sections 2, 3 and 4 of this Chapter excluding broadcasting.
2. For the purposes of this Sub-section and Sections 2, 3 and 4 of this Chapter:
 - (a) "electronic communication services" means all services that consist of the transmission and reception of electromagnetic signals and are normally provided for remuneration, excluding broadcasting, which does not cover the economic activity consisting in the provision of content that requires telecommunications for its transport. Broadcasting is defined as the uninterrupted chain of transmission required for the distribution of television and radio programme signals to the general public, but does not cover contribution links between operators;
 - (b) "public communication network" means an electronic communication network used wholly or mainly for the provision of publicly available electronic communication services;
 - (c) "electronic communication network" means transmission systems and, where applicable, switching or routing equipment and other resources which permit the conveyance of signals by wire, by radio, by optical or by other electromagnetic means, including satellite networks, fixed (circuit- and packet-switched, including Internet) and mobile terrestrial networks, and electricity cable systems, to the extent that they are used for the purpose of transmitting signals, networks used for radio and television broadcasting, and cable television networks, irrespective of the type of information conveyed;
 - (d) a "regulatory authority" in the electronic communication sector means the body or bodies charged with the regulation of electronic communication mentioned in this Chapter;
 - (e) a service supplier shall be deemed to have "significant market power" if, either individually or jointly with others, it enjoys a position equivalent to dominance, that is to say a position of economic strength affording it the power to behave to an appreciable extent independently of competitors, customers and ultimately consumers;
 - (f) "interconnection" means the physical and/or logical linking of public communication networks used by the same or a different service supplier in order to allow the users of one service supplier to communicate with users of the same or another service supplier, or to access services provided by another service supplier. Services may be provided by the parties involved or other parties who have access to the network. Interconnection is a specific type of access implemented between public network operators;

- (g) "universal service" means the set of services of specified quality that is made available to all users in the territory of a Party regardless of their geographical location and at an affordable price; its scope and implementation are decided by each Party;
- (h) "access" means the making available of facilities and/or services, to another service supplier, under defined conditions, on either an exclusive or non-exclusive basis, for the purpose of providing electronic communication services. It covers, *inter alia*, access to network elements and associated facilities, which may involve the connection of equipment by fixed or non-fixed means (in particular this includes access to the local loop and to facilities and services necessary to provide services over the local loop), access to physical infrastructure including buildings, cable ducts, and masts; access to relevant software systems including operational support systems, access to numbering translation or systems offering equivalent functionality, access to fixed and mobile networks, in particular for roaming, access to conditional access systems for digital television services, access to virtual network services;
- (i) "end-user" means a user not providing public communication networks or publicly available electronic communication services;
- (j) "local loop" means the physical circuit connecting the network termination point at the subscriber's premises to the main distribution frame or equivalent facility in the fixed public communication network.

Article 116

Regulatory authority

1. The Parties shall ensure that regulatory authorities for electronic communication services are legally distinct and functionally independent from any service supplier of electronic communication services. If a Party retains ownership or control of a service supplier providing public communication networks or services, such Party shall ensure the effective structural separation of the regulatory function from activities associated with ownership or control.
2. The Parties shall ensure that the regulatory authority is sufficiently empowered to regulate the sector. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular where those tasks are assigned to more than one body.
3. The Parties shall ensure that the decisions of and the procedures used by the regulatory authorities are impartial with respect to all market participants and transparent.
4. The regulatory authority shall have the power to carry out an analysis of the indicative list of relevant product and service markets included in the Annexes ⁽¹⁾ to this Agreement. Where the regulatory authority is required to determine under Article 118 of this Agreement whether to impose, maintain, amend or withdraw obligations, it shall determine on the basis of a market analysis whether the relevant market is effectively competitive.
5. Where the regulatory authority determines that a relevant market is not effectively competitive, it shall identify and designate service suppliers with significant market power on that market and shall impose, maintain or amend specific regulatory obligations referred to in Article 118 of this Agreement as it is appropriate. Where the regulatory authority concludes that the market is effectively competitive it shall not impose or maintain any of the regulatory obligations referred to in Article 118 of this Agreement.
6. The Parties shall ensure that a service supplier affected by the decision of a regulatory authority shall have a right to appeal against that decision to an appeal body that is independent of the parties involved in the decision. The Parties shall ensure that the merits of the case are duly taken into account. Pending the outcome of any such appeal, the decision of the regulator shall stand, unless the appeal body decides otherwise. Where the appeal body is not judicial in character, written reasons for its decision shall always be given and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions taken by appeal bodies shall be effectively enforced.

⁽¹⁾ For the EU Party: The indicative list of relevant product and service markets is submitted as a separate Annex XIX. The list of relevant markets included in Annex XIX is subject to regular revision by the EU. Any obligations undertaken on the basis of this Chapter will need to take into account such revision. For Ukraine: The indicative list of product and service markets is submitted as a separate Annex XX. The list of relevant markets included in Annex XX is subject to regular revision by Ukraine under the *acquis* approximation process provided for in Article 124. Any obligations undertaken on the basis of this Chapter will need to take into account such revision.

7. The Parties shall ensure that where the regulatory authorities intend to take measures related to any of the provisions of this Sub-section and which have a significant impact on the relevant market, they give the interested parties the opportunity to comment on the draft measure within a reasonable period of time. Regulators shall publish their consultation procedures. The results of the consultation procedure shall be made publicly available except in the case of confidential information.

8. The Parties shall ensure that service suppliers providing electronic communication networks and services provide all the information, including financial information, necessary for regulatory authorities to ensure conformity with the provisions of this Sub-section or decisions made in accordance with this Sub-section. These service suppliers shall provide such information promptly on request and to the timescales and level of detail required by the regulatory authority. The information requested by the regulatory authority shall be proportionate to the performance of that task. The regulatory authority shall give the reasons justifying its request for information.

Article 117

Authorisation to provide electronic communication services

1. The Parties shall ensure that the provision of services is authorised, as much as possible, following mere notification and/or registration.

2. The Parties shall ensure that a licence can be required to address issues of attributions of numbers and frequencies. The terms and conditions for such licences shall be made publicly available.

3. The Parties shall ensure that where a licence is required:

- (a) all the licensing criteria and a reasonable period of time normally required to reach a decision concerning an application for a licence are made publicly available;
- (b) the reasons for the denial of a licence are made known in writing to the applicant upon request;
- (c) the applicant of a licence is able to seek recourse before an appeal body in case that a licence is unduly denied;
- (d) licence fees ⁽¹⁾ required by any Party for granting a licence do not exceed the administrative costs normally incurred in the management, control and enforcement of the applicable licences. Licence fees for the use of radio spectrum and numbering resources are not subject to the requirements of this paragraph.

Article 118

Access and interconnection

1. The Parties shall ensure that any service supplier authorised to provide electronic communication services has the right and obligation to negotiate interconnection with other providers of publicly available electronic communications networks and services. Interconnection should in principle be agreed on the basis of commercial negotiation between the legal persons concerned.

2. The Parties shall ensure that service suppliers that acquire information from another service supplier during the process of negotiating interconnection arrangements use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

3. The Parties shall ensure that upon the finding in accordance with Article 116 of this Agreement that a relevant market, including those in the attached Annexes to this Agreement, is not effectively competitive, the regulatory authority has the power to impose on the service supplier designated as having significant market power one or more of the following obligations in relation to interconnection and/or access:

- (a) obligation of non-discrimination to ensure that the operator applies equivalent conditions in equivalent circumstances to other service suppliers providing equivalent services, and provides services and information to others under the same conditions and of the same quality as it provides for its own services, or those of its subsidiaries or partners;

⁽¹⁾ Licensing fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

- (b) obligation on a vertically integrated company to make transparent its wholesale prices and its internal transfer prices, where there is a requirement for non-discrimination or for prevention of unfair cross-subsidy. The regulatory authority may specify the format and accounting methodology to be used;
- (c) obligations to meet reasonable requests for access to, and use of, specific network elements and associated facilities including unbundled access to the local loop, *inter alia*, in situations where the regulatory authority considers that denial of access or unreasonable terms and conditions having a similar effect would hinder the emergence of a sustainable competitive market at the retail level, or would not be in the end-user's interest;
- (d) obligation to provide specified services on a wholesale basis for resale by third parties; to grant open access to technical interfaces, protocols or other key technologies that are indispensable for the interoperability of services or virtual network services; to provide co-location or other forms of facility sharing, including cable duct, building or mast sharing; to provide specified services needed to ensure interoperability of end-to-end services to users, including facilities for intelligent network services; to provide access to operational support systems or similar software systems necessary to ensure fair competition in the provision of services; to interconnect networks or network facilities.

Regulatory authorities may attach conditions including fairness, reasonableness and timeliness to the obligations included under points (c) and (d) of this paragraph;

- (e) obligations relating to cost recovery and price controls, including obligations for cost orientation of prices and obligations concerning cost accounting systems, for the provision of specific types of interconnection and/or access, in situations where a market analysis indicates that a lack of effective competition means that the operator concerned might sustain prices at an excessively high level, or apply a price squeeze, to the detriment of end-users;

Regulatory authorities shall take into account the investment made by the operator and allow him a reasonable rate of return on adequate capital employed.

- (f) obligation to publish the specific obligations imposed on a service supplier by the regulatory authority identifying the specific product/service and geographical markets. Up-to-date information, provided that it is not confidential and does not comprise business secrets is to be made publicly available in a manner that guarantees all interested parties easy access to that information;
- (g) obligations of transparency requiring operators to make public specified information and in particular, where an operator has obligations of non-discrimination, the regulator may require that operator to publish a reference offer, which shall be sufficiently unbundled to ensure that service suppliers are not required to pay for facilities which are not necessary for the service requested, giving a description of the relevant offerings broken down into components according to market needs, and the associated terms and conditions including prices.

4. The Parties shall ensure that a service supplier requesting interconnection with a service supplier designated as having significant market power shall have recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory body as referred to in Article 115(2)(d) of this Agreement, to resolve disputes regarding terms and conditions for interconnection and/or access.

Article 119

Scarce resources

1. The Parties shall ensure that any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, proportionate, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

2. The Parties shall ensure the effective management of radio frequencies for telecommunications services in their territory with a view to ensuring effective and efficient use of the spectrum. Where demand for specific frequencies exceeds their availability, appropriate and transparent procedures shall be followed for the assignment of these frequencies in order to optimize their use and facilitate the development of competition.

3. The Parties shall ensure that the assignment of national numbering resources and the management of national numbering plans are entrusted to the regulatory authority.

4. Where public or local authorities retain ownership or control of service suppliers operating public communications networks and/or services, effective structural separation needs to be ensured between the function responsible for granting the rights of way from activities associated with ownership or control.

Article 120

Universal service

1. Each Party has the right to define the kind of universal service obligations it wishes to maintain.

2. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, objective and non-discriminatory way. The administration of such obligations shall also be neutral with respect to competition and be not more burdensome than necessary for the kind of universal service defined by the Party.

3. The Parties shall ensure that all service suppliers should be eligible to ensure universal service and no service supplier shall be a priori excluded. The designation shall be made through an efficient, transparent, objective and non-discriminatory mechanism. Where necessary, Parties shall assess whether the provision of universal service represents an unfair burden on organisations(s) designated to provide universal service. Where justified on the basis of such calculation, and taking into account the market benefit if any which accrues to an organisation that offers universal service, regulatory authorities shall determine whether a mechanism is required to compensate the service supplier(s) concerned or to share the net cost of universal service obligations.

4. The Parties shall ensure that:

(a) directories of all subscribers ⁽¹⁾ are available to users, whether printed or electronic, or both, and are updated on a regular basis, and at least once a year;

(b) organisations that provide the services referred to in paragraph (a) apply the principle of non-discrimination to the treatment of information that has been provided to them by other organisations.

Article 121

Cross-border provision of electronic communication services

The Parties shall not adopt or maintain any measure restricting the cross-border provision of electronic communication services.

Article 122

Confidentiality of information

Each Party shall ensure the confidentiality of electronic communication and related traffic data by means of a public electronic communication network and publicly available electronic communication services without restricting trade in services.

Article 123

Disputes between service suppliers

1. The Parties shall ensure that in the event of a dispute arising between service suppliers of electronic communication networks or services in connection with rights and obligations referred to in this Chapter, the regulatory authority concerned shall, at the request of either Party, issue a binding decision to resolve the dispute in the shortest possible timeframe and in any case within four months.

⁽¹⁾ In compliance with the applicable rules on processing of personal data and the protection of privacy in the electronic communication sector.

2. The decision of the regulatory authority shall be made available to the public, having regard to the requirements of business confidentiality. The parties concerned shall be given a full statement of the reasons on which it is based.

3. When such a dispute concerns the cross-border provision of services, the regulatory authorities concerned shall coordinate their efforts in order to bring about a resolution of the dispute.

Article 124

Regulatory approximation

1. The Parties recognise the importance of the approximation of Ukraine's existing legislation to that of the European Union. Ukraine shall ensure that its existing laws and future legislation will be gradually made compatible with the EU *acquis*.

2. Such approximation will start on the date of signing of this Agreement, and will gradually extend to all the elements of the EU *acquis* referred to in Annex XVII to this Agreement.

Prudential carve-out

1. Each Party may adopt or maintain measures for prudential reasons, such as:
 - (a) the protection of investors, depositors, policy-holders or persons to whom a fiduciary duty is owed by a financial service supplier;
 - (b) ensuring the integrity and stability of a Party's financial system.

2. These measures shall not be more burdensome than necessary to achieve their aim, and shall not discriminate against financial service suppliers of the other Party in comparison to its own like financial service suppliers.
3. Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual consumers or any confidential or proprietary information in the possession of public entities.
4. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of the other Party and of financial instruments.

Article 127

Effective and transparent regulation

1. Each Party shall make its best endeavours to provide in advance to all interested persons any measure of general application that the Party proposes to adopt in order to allow such persons an opportunity to comment on the measure. Such measure shall be provided:

The Parties also take note of the Ten Key Principles for Information Exchange promulgated by the Finance Ministers of the G7 Nations, and will take all steps necessary to try to apply them in their bilateral contacts.

Article 128

New financial services

Each Party shall permit a financial service supplier of the other Party established in the territory of that Party to provide any new financial service of a type similar to those services that the Party would permit its own financial service suppliers to provide under its domestic law in like circumstances. A Party may determine the juridical form through which the service may be provided and may require authorisation for the provision of the service. Where such authorisation is required, a decision shall be made within a reasonable time and the authorisation may only be refused for the reasons set out in Article 126 of this Agreement.

Article 129

Data processing

1. Each Party shall permit a financial service supplier of the other Party to transfer information in electronic or other form, into and out of its territory, for data processing where such processing is required in the ordinary course of business of such financial service supplier.

2. Each Party shall adopt adequate safeguards for the protection of privacy and fundamental rights and the freedom of individuals, in particular with regard to the transfer of personal data.

Article 130

Specific exceptions

1. Nothing in this Chapter shall be construed in such a way as to prevent a Party, including its public entities, from exclusively conducting or providing in its territory activities or services forming part of a public retirement plan or statutory system of social security, except when those activities may be carried out, as provided by the Party's domestic regulation, by financial service suppliers in competition with public entities or private institutions.

2. Nothing in this Agreement applies to activities conducted by a central bank or monetary authority or by any other public entity in pursuit of monetary or exchange rate policies.

3. Nothing in this Chapter shall be construed in such a way as to prevent a Party, including its public entities, from exclusively conducting or providing in its territory activities or services for the account of, or with the guarantee or using the financial resources of the Party, or its public entities.

Article 131

Self-regulatory organisations

When a Party requires membership of or participation in, or access to, any self-regulatory body, securities or futures exchange or market, clearing agency, or any other organisation or association, in order for financial service suppliers of the other Party to supply financial services on an equal basis with financial service suppliers of the Party, or when the Party provides directly or indirectly such entities, privileges or advantages in supplying financial services, the Party shall ensure observance of the obligations under Articles 88 and 94 of this Agreement.

Article 132

Clearing and payment systems

Under terms and conditions that accord national treatment, each Party shall grant to financial service suppliers of the other Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This Article is not intended to confer access to the Party's lender of last resort facilities.

Article 133

Regulatory approximation

1. The Parties recognise the importance of the approximation of Ukraine's existing legislation to that of the European Union. Ukraine shall ensure that its existing laws and future legislation will be gradually made compatible with the EU *acquis*.

2. Such approximation will start on the date of signing of this Agreement, and will gradually extend to all the elements of the EU *acquis* referred to in Annex XVII to this Agreement.

Sub-section 7

Transport services

Article 134

Scope

This Sub-section sets out the principles regarding the liberalisation of transport services pursuant to Sections 2, 3 and 4 of this Chapter.

*Article 135***International maritime transport**

1. This Agreement applies to international maritime transport between the ports of Ukraine and of the Member States of the European Union and between the ports of the Member States of the European Union. It also applies to trades between the ports of Ukraine and third countries and between the ports of the Member States of the European Union and third countries.

2. This Agreement shall not apply to domestic maritime transport between the ports of Ukraine or between the ports of individual Member States of the European Union. Notwithstanding the previous sentence, the movement of equipment, such as empty containers, not being carried as cargo against payment between the ports of Ukraine or between the ports of individual Member States of the European Union shall be regarded as a part of international maritime transport.

3. For the purposes of this Sub-section and Sections 2, 3 and 4 of this Chapter:
 - (a) "international maritime transport" includes door to door and multi-modal transport operations, which is the carriage of goods using more than one mode of transport, involving a sea-leg, under a single transport document, and to this effect direct contracting with providers of other modes of transport;

 - (b) "maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies.  - (d) "container station and depot services" means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments;

(g) "feeder services" means the pre- and onward transport of international cargoes by sea, in particular containerised, between ports located in a Party.

4. Each Party shall grant to vessels flying the flag of the other Party or operated by service suppliers of the other Party treatment no less favourable than that accorded to its own vessels, or those of any third country, whichever are the better, with regard to, *inter alia*, access to ports, the use of infrastructure and services of ports, and the use of maritime auxiliary services⁽¹⁾, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.

5. The Parties shall apply effectively the principle of unrestricted access to the international maritime markets and trades on a commercial and non-discriminatory basis.

6. In applying the principles of paragraphs 4 and 5 of this Article, the Parties shall, upon entry into force of this Agreement:

(a) not introduce cargo sharing arrangements in future agreements with third countries concerning maritime transport services, including dry and liquid bulk and liner trade, and terminate such cargo sharing arrangements in the case they exist in previous agreements; and

(b) abolish or abstain from implementing any administrative, technical, or other measures, which could constitute an indirect restriction and have discriminatory effects against nationals or companies of the other Party in the supply of services in international maritime transport.

7. Each Party shall permit international maritime transport service suppliers of the other Party to have establishments in its territory under conditions of establishment and operation no less favourable than those accorded to its own service suppliers or those of any third country, whichever are the better. In accordance with the provisions of Section 2 of this Chapter, in respect of the activities of such establishments, each Party shall permit the service suppliers of the other Party, in accordance with its laws and regulations, to engage in economic activities, such as, but not limited to:

(a) publishing, marketing and sales of maritime transport and related services, from quotation to invoicing, on their own account or on behalf of other service suppliers of international maritime transport, through direct contact with customers;

(b) provision of business information by any means, including computerised information systems and electronic data interchange (subject to any non-discriminatory restrictions concerning telecommunications);

⁽¹⁾ Maritime auxiliary services include maritime cargo handling services, storage and warehousing services, customs clearance services, container station and depot services, maritime agency services, (maritime) freight forwarding services, rental of vessels with crew, maintenance and repair of vessels, pushing and towing services, and supporting services for maritime transport.

9. Each Party shall allow services suppliers of international maritime transport of the other Party to provide international maritime transport services involving a sea-leg in the inland waterways of the other Party.

10. Each Party shall allow services suppliers of international maritime transport of the other Party to have use of, on a non-discriminatory basis and on agreed terms between the companies concerned, feeder services between the ports of Ukraine or between the ports of individual Member States of the European Union that are provided by the service suppliers of maritime transport registered in the former Party.

11. This Agreement shall not affect the application of the maritime agreements concluded between Ukraine and the Member States of the European Union for issues falling outside the scope of this Agreement. If this Agreement is less favourable on certain issues than existing agreements between individual Member States of the European Union and Ukraine, the more favourable provisions shall prevail without prejudice to EU Party obligations and taking into account the Treaty on the Functioning of the European Union. The provisions of this Agreement replace those of previous bilateral agreements concluded between Member States of the European Union and Ukraine, if the latter provisions are either inconsistent with the former except for the situation referred to in the preceding sentence, or identical to them. Provisions of existing bilateral agreements not covered by this Agreement shall continue to apply.

Article 136

Road, rail and inland waterways transport

1. With a view to assuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in road, rail and inland waterways transport shall be dealt with by possible future special road, rail and inland waterways transport agreements.

2. Prior to the conclusion of the agreements referred to in paragraph 1 of this Article, the Parties shall not render the conditions of mutual market access more restrictive between the Parties as compared to the situation existing on the day preceding the day of entry into force of this Agreement.

3. The provisions of existing bilateral agreements which are not covered by future possible agreements referred to in paragraph 1 of this Article shall continue to apply.

Article 137

Air transport

1. With a view to ensuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in air transport should be dealt in accordance with the EU-Ukraine Common Aviation Area Agreement (hereinafter referred to as the "CAA").

2. Prior to the conclusion of the CAA, the Parties shall not take any measures or actions which are more restrictive or discriminatory as compared with the situation existing prior to the entry into force of this Agreement.

Article 138

Regulatory approximation

Ukraine shall adapt its legislation, including administrative, technical and other rules, to that of the EU Party existing at any time in the field of international maritime transport insofar as it serves to achieve the objectives of liberalisation, mutual access to the markets of the Parties, and the movement of passengers and of goods. This approximation will start on the date of signing of the Agreement, and will gradually extend to all the elements of the EU *acquis* referred to in Annex XVII to this Agreement.

Section 6

Electronic commerce*Article 139***Objective and principles**

1. The Parties, recognising that electronic commerce increases trade opportunities in many sectors, agree to promote the development of electronic commerce between them, in particular by co-operating on the issues raised by electronic commerce under the provisions of this Chapter.
2. The Parties agree that the development of electronic commerce must be fully compatible with the highest international standards of data protection, in order to ensure the confidence of users of electronic commerce.
3. The Parties agree that electronic transmissions shall be considered as the provision of services, within the meaning of Section 3 (Cross-border supply of services) of this Chapter, which cannot be subject to customs duties.

*Article 140***Regulatory aspects of electronic commerce**

1. The Parties shall maintain a dialogue on regulatory issues raised by electronic commerce, which will inter alia address the following issues:

 - (c) the treatment of unsolicited electronic commercial communications,
 - (d) the protection of consumers within the ambit of electronic commerce,
 - (e) any other issue relevant to the development of electronic commerce.
2. Such cooperation can take the form of exchange of information on the Parties' respective legislation on these issues as well as on the implementation of such legislation.

Section 7

Exceptions*Article 141***General exceptions**

1. Without prejudice to general exceptions set out in Articles 472 of this Agreement, the provisions of this Chapter and of Annexes XVI-A, XVI-B, XVI-C, XVI-D, XVI-E, XVI-F and XVII to this Agreement are subject to the exceptions contained in this Article.
2. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on establishment or cross-border supply of services, nothing in this Chapter shall be construed in such a way as to prevent the adoption or enforcement by any Party of measures:
 - (a) necessary to protect public security or public morals or to maintain public order;
 - (b) necessary to protect human, animal or plant life or health;

- (c) relating to the conservation of exhaustible natural resources if such measures are applied in conjunction with restrictions on domestic investors or on the domestic supply or consumption of services;
- (d) necessary for the protection of national treasures of artistic, historic or archaeological value;

 - (iii) safety.
- (f) inconsistent with Article 88(1) and Article 94 of this Agreement, provided that the difference in treatment is aimed at ensuring the effective or equitable imposition or collection of direct taxes in respect of economic activities, investors or services suppliers of the other Party ⁽¹⁾.

3. The provisions of this Chapter and of Annexes XVI-A, XVI-B, XVI-C, XVI-D, XVI-E, XVI-F and XVII to this Agreement shall not apply to the Parties' respective social security systems or to activities in the territory of each Party, which are connected, even occasionally, with the exercise of official authority.

Article 142

Taxation measures

The MFN treatment granted in accordance with the provisions of this Chapter shall not apply to the tax treatment that Parties are providing or will provide in future on the basis of agreements between the Parties designed to avoid double taxation.

Article 143

Security exceptions

1. Nothing in this Agreement shall be construed in such a way as:
 - (a) to require any Party to furnish any information, the disclosure of which it considers contrary to its essential security interests; or
 - (b) to prevent any Party from taking any action which it considers necessary for the protection of its essential security interests:
 - (i) connected with the production of or trade in arms, munitions or war material;
 - (ii) relating to economic activities carried out directly or indirectly for the purpose of provisioning a military establishment;

⁽¹⁾ Measures that are aimed at ensuring the equitable or effective imposition or collection of direct taxes include measures taken by a Party under its taxation system which:

- (vi) determine, allocate or apportion income, profit, gain, loss, deduction or credit of resident persons or branches, or between related persons or branches of the same person, in order to safeguard the Party's tax base.

Tax terms or concepts in paragraph (f) of this provision and in this footnote are determined according to tax definitions and concepts, or equivalent or similar definitions and concepts, under the domestic law of the Party taking the measure.

- (iii) relating to fissionable and fusionable materials or the materials from which they are derived; or
- (iv) taken in time of war or other emergency in international relations; or
- (c) to prevent any Party from taking any action in pursuance of obligations it has accepted for the purpose of maintaining international peace and security.

CHAPTER 7

Current payments and movement of capital

Article 144

Current payments

The Parties undertake to impose no restrictions and shall allow, in freely convertible currency, in accordance with the provisions of Article VIII of the Articles of the Agreement of the IMF, any payments and transfers on the current account of balance of payments between the Parties.

Article 145

Capital movements

1. With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to direct investments⁽¹⁾ made in accordance with the laws of the host country, to investments made in accordance with the provisions of Chapter 6 (Establishment, Trade in Services and Electronic Commerce) of Title IV of this Agreement and to the liquidation or repatriation of such invested capitals and of any profit stemming therefrom.
2. With regard to other transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement and without prejudice to other provisions of this Agreement the Parties shall ensure:
 - (a) the free movement of capital relating to credits related to commercial transactions or to the provision of services in which a resident of one of the Parties is participating;
 - (b) the free movement of capital relating to portfolio investments and financial loans and credits by the investors of the other Party.
3. Ukraine undertakes to complete the liberalisation of transactions on the capital and financial account of balance of payments equivalent to the liberalisation in the EU Party prior to the granting of internal market treatment in the area of financial services under Article 4(3) of Annex XVII to this Agreement. A positive assessment of the Ukrainian legislation on capital movements, its implementation and continued enforcement conducted in line with the principles outlined in Article 4(3) of Annex XVII to this Agreement is a necessary precondition of any decision by the Trade Committee to grant internal market treatment with respect to financial services.
4. Without prejudice to other provisions of this Agreement, the Parties shall not introduce any new restrictions on the movement of capital and current payments between residents of the EU Party and Ukraine and shall not make the existing arrangements more restrictive.

Article 146

Safeguard measures

Without prejudice to other provisions of this Agreement, where, in exceptional circumstances, payments or movements of capital between the Parties cause, or threaten to cause, serious difficulties for the operation of exchange rate policy or monetary policy⁽²⁾ in one or more Member States of the European Union or Ukraine, the Parties concerned may take safeguard measures with regard to movements of capital between the EU Party and Ukraine for a period not exceeding six months if such measures are strictly necessary. The Party adopting the safeguard measure shall inform the other Party forthwith of the adoption of such measure and shall present, as soon as possible, a schedule for its removal.

⁽¹⁾ Including the acquisition of real estate related to direct investment.

⁽²⁾ Including serious balance of payments difficulties.

*Article 147***Facilitation and further liberalization provisions**

1. The Parties shall consult each other with a view to facilitating the movement of capital between the Parties in order to promote the objectives of this Agreement.
2. During the first four years following the date of entry into force of this Agreement, the Parties shall take measures permitting the creation of the necessary conditions for the further gradual application of EU Party rules on the free movement of capital.
3. By the end of the fifth year following the date of entry into force of this Agreement, the Trade Committee shall review the measures taken and shall determine the modalities for further liberalisation.

*CHAPTER 8***Public procurement***Article 148***Objectives**

The Parties recognise the contribution of transparent, non-discriminatory, competitive and open tendering to sustainable economic development and set as their objective the effective, reciprocal and gradual opening of their respective procurement markets.

This Chapter envisages mutual access to public procurement markets on the basis of the principle of national treatment at national, regional and local level for public contracts and concessions in the traditional sector as well as in the utilities sector. It provides for the progressive approximation of the public procurement legislation in Ukraine with the EU public procurement *acquis*, accompanied with an institutional reform and the creation of an efficient public procurement system based on the principles governing public procurement in the EU Party and the terms and definitions set out in Directive 2004/18/EC of the European Parliament and of the Council of 31 March 2004 on the coordination of procedures for the award of public works contracts, public supply contracts and public service contracts (hereinafter referred to as "Directive 2004/18/EC") and Directive 2004/17/EC of the European Parliament and of the Council of 31 March 2004 coordinating the procurement procedures of entities operating in the water, energy, transport and postal services sectors (hereinafter referred to as "Directive 2004/17/EC").

*Article 149***Scope**

1. This Chapter applies to works, supplies and services public contracts, as well as works, supplies and services contracts in the utilities sectors and works and services concessions.
2. This Chapter applies to any contracting authority and any contracting entity which meets the definitions of the EU public procurement *acquis* (hereinafter both referred to as the "contracting entities"). It covers also bodies governed by public law and public undertakings in the field of utilities such as state-owned enterprises carrying out the relevant activities and private undertakings operating on the basis of special and exclusive rights in the field of utilities.
3. This Chapter applies to contracts above value thresholds set out in Annex XXI-P:

The calculation of the estimated value of a public contract shall be based on the total amount payable, net of Value Added Tax. When applying these thresholds, Ukraine will calculate and convert these values into its own national currency, using the exchange rate of its National Bank.

These value thresholds shall be revised regularly every two years, beginning in the first even year following the entry into force of the Agreement, based on the average daily value of the Euro, expressed in Special Drawing Rights, over the 24 months terminating on the last day of August preceding the revision with effect from January 1. The value of the thresholds thus revised shall, where necessary, be rounded down to nearest thousand Euro. The revision of the thresholds shall be adopted by the Trade Committee according to the procedure defined in Title VII (Institutional General and Final Provisions) of this Agreement.

*Article 150***Institutional background**

1. The Parties shall establish or maintain an appropriate institutional framework and mechanisms necessary for the proper functioning of the public procurement system and the implementation of the relevant principles.
2. In the framework of the institutional reform, Ukraine shall designate in particular:
 - (a) a central executive body responsible for economic policy tasked with guaranteeing a coherent policy in all areas related to public procurement. Such a body shall facilitate and coordinate the implementation of this Chapter and guide the process of legislative approximation
 - (b) an impartial and independent body tasked with the review of decisions taken by contracting authorities or entities during the award of contracts. In this context, "independent" means that that body shall be a public authority which is separate from all contracting entities and economic operators. There shall be a possibility to subject the decisions taken by this body to judicial review.
3. The Parties shall ensure that decisions taken by the authorities responsible for the review of complaints shall be effectively enforced.

*Article 151***Basic standards regulating the award of contracts**

1. No later than six months from the entry into force of this Agreement, the Parties shall comply with a set of basic standards for the award of all contracts as stipulated in paragraphs 2 to 15 of this Article. These basic standards derive directly from the rules and principles of public procurement, as regulated in the EU public procurement *acquis*, including the principles of non-discrimination, equal treatment, transparency and proportionality.

Publication

2. The Parties shall ensure that all intended procurements are published in an appropriate media in a manner that is sufficient:
 - (a) to enable the market to be opened up to competition; and
 - (b) to allow any interested economic operator to have appropriate access to information regarding the intended procurement prior to the award of the contract and to express its interest in obtaining the contract.
3. The publication shall be appropriate to the economic interest of the contract to economic operators.
4. The publication shall contain at least the essential details of the contract to be awarded, the criteria for qualitative selection, the award method, the contract award criteria and any other additional information that the economic operators reasonably need to make a decision on whether to express their interest in obtaining the contract.

Award of contracts

5. All contracts shall be awarded through transparent and impartial award procedures that prevent corruptive practices. This impartiality shall be ensured especially through the non-discriminatory description of the subject-matter of the contract, equal access for all economic operators, appropriate time-limits and a transparent and objective approach.
6. When describing the characteristics of the required work, supply or service, the contracting entities shall use general descriptions of performance and functions and international, European or national standards.

7. The description of the characteristics required of a work, supply or service should not refer to a specific make or source, or a particular process, or to trade-marks, patents, types or a specific origin or production unless such a reference is justified by the subject-matter of the contract and accompanied by the words 'or equivalent'. Preference shall be given to the use of general descriptions of performance or functions.

8. Contracting entities shall not impose conditions resulting in direct or indirect discrimination against the economic operators of the other Party, such as the requirement that economic operators interested in the contract must be established in the same country, region or territory as the contracting entity.

Notwithstanding the above, in cases where it is justified by the specific circumstances of the contract, the successful applicant may be required to establish certain business infrastructure at the place of performance.

9. The time-limits for expression of interest and for submission of offers shall be sufficiently long to allow economic operators from the other Party to make a meaningful assessment of the tender and prepare their offer.

10. All participants must be able to know the applicable rules, selection criteria and award criteria in advance. These rules must apply equally to all participants.

11. Contracting entities may invite a limited number of applicants to submit an offer, provided that:

(a) this is done in a transparent and non-discriminatory manner; and

(b) the selection is based only on objective factors such as the experience of the applicants in the sector concerned, the size and infrastructure of their businesses or their technical and professional abilities.

In inviting a limited number of applicants to submit an offer, account should be taken of the need to ensure adequate competition.

12. Contracting entities may use negotiated procedures only in exceptional defined cases when the use of such a procedure effectively does not distort competition.

13. Contracting entities may use qualification systems only on condition that the list of qualified operators is compiled by means of a sufficiently advertised, transparent and open procedure. Contracts falling within the scope of such systems shall be awarded also on a non-discriminatory basis.

14. The Parties shall ensure that contracts are awarded in a transparent manner to the applicant who has submitted the economically most advantageous offer or the offer with the lowest price, based on the tender criteria and the procedural rules established and communicated in advance. The final decisions are to be communicated to all applicants without undue delay. Upon request of an unsuccessful applicant, reasons must be provided in sufficient detail to allow a review of the decision.

Judicial protection

15. The Parties shall ensure that any person having or having had an interest in obtaining a particular contract and who has been, or risks, being harmed by an alleged infringement is entitled to effective, impartial judicial protection against any decision of the contracting entity related to the award of that contract. The decisions taken in the course and at the end of such review procedure shall be made public in a manner that is sufficient to inform all interested economic operators.

Article 152

Planning of legislative approximation

1. Prior to the commencement of legislative approximation, Ukraine shall submit to the Trade Committee a comprehensive roadmap for the implementation of this Chapter with time schedules and milestones which should include all reforms in terms of legislative approximation and institutional capacity building. This roadmap shall comply with the phases and time Schedules set out in Annex XXI-A to this Agreement.

2. The roadmap shall cover all aspects of the reform and the general legal framework for the implementation of public procurement activities, in particular: legislative approximation for public contracts, contracts in the utilities sector, works concessions and review procedures, and strengthening of the administrative capacity at all levels including review bodies and enforcement mechanisms.

3. Following a favourable opinion by the Trade Committee, this roadmap shall be considered as the reference document for the implementation of this Chapter. The European Union will make its best efforts in assisting Ukraine in the implementation of the roadmap.

Article 153

Legislative approximation

1. Ukraine shall ensure that its existing and future legislation on public procurement will be gradually made compatible with the EU public procurement *acquis*.

2. Legislative approximation shall be carried out in consecutive phases as set out in Annex XXI-A and Annexes XXI-B to XXI-E, XXI-G, XXI-H, and XXI-J to this Agreement. Annexes XXI-F and XXI-I to this Agreement identify non-mandatory elements that need not be transposed, whereas Annexes XXI-K to N to this Agreement identify elements of the EU *acquis* that remain outside the scope of legislative approximation. In this process, due account shall be taken of the corresponding case law of the European Court of Justice and the implementing measures adopted by the European Commission as well as, if this should become necessary, of any modifications of the EU *acquis* occurring in the meantime. The implementation of each phase shall be evaluated by the Trade Committee, and, following a positive assessment by that the Trade Committee, be linked to the reciprocal granting of market access as set out in Annex XXI-A to this Agreement. The European Commission shall notify without undue delay Ukraine of any modifications of the EU *acquis*. It will provide appropriate advice and technical assistance for the purpose of implementing such modifications.

3. The Parties agree that the Trade Committee shall only proceed to the evaluation of a subsequent phase once the measures to implement the previous phase have been carried out and approved according to the modalities set out in paragraph 2 of this Article.

4. The Parties shall ensure that those aspects and areas of public procurement which are not covered by this Article shall comply with the principles of transparency, non-discrimination and equal treatment as set out in Article 151 of this Agreement.

Article 154

Market access

1. The Parties agree that the effective and reciprocal opening of their respective markets shall be attained gradually and simultaneously. During the process of legislative approximation, the extent of the market access mutually granted shall be linked to the progress made in this process as stipulated in Annex XXI-A to this Agreement.

2. The decision to proceed to a further phase of market opening shall be made on the basis of an assessment of the quality of the legislation adopted as well as its practical implementation. Such assessment shall be carried out regularly by the Trade Committee.

3. Insofar as a Party has, according to Annex XXI-A to this Agreement, opened its procurement market to the other Party, the EU Party shall grant access to contract award procedures to Ukrainian companies - whether established or not in the EU Party - pursuant to EU public procurement rules under treatment no less favourable than that accorded to EU Party companies; Ukraine shall grant access to contract award procedures for EU Party companies - whether established or not in Ukraine - pursuant to national procurement rules under treatment no less favourable than that accorded to Ukrainian companies.

4. After the implementation of the last phase in the process of legislative approximation, the Parties will examine the possibility to mutually grant market access with regard to procurements even below the value thresholds set out in Article 149(3) of this Agreement.

5. Finland reserves its position with regard to the Aland Islands.

Article 155

Information

1. The Parties shall ensure that contracting entities and economic operators are well informed about public procurement procedures, including through the publication of all relevant legislation and administrative rulings.
2. The Parties shall ensure the effective dissemination of information on tendering opportunities.

Article 156

Cooperation

1. The Parties shall enhance their cooperation through exchange of experience and information relating to their best practices and regulatory frameworks.
2. The EU Party shall facilitate the implementation of this Chapter, including through technical assistance where appropriate. In line with the provisions on financial cooperation in Title VI (Financial Co-operation, with Anti-fraud Provisions) of this Agreement, specific decisions on financial assistance shall be taken through the relevant EU funding mechanisms and instruments.
3. An indicative list of issues for cooperation is included in Annex XXI-O to this Agreement.

*Article 197***Use of trade-marks**

1. If, within five years of the date of completion of the registration procedure, the proprietor has not put a trade-mark to genuine use in connection with the goods or services in respect of which it is registered in the relevant territory, or if such use has been suspended during an uninterrupted period of five years, the trade-mark shall be subject to the sanctions provided for in this Sub-section, unless there are proper reasons for non-use.
2. The following shall also constitute use within the meaning of paragraph 1:
 - (a) use of the trade-mark in a form differing in elements which do not alter the distinctive character of the mark in the form in which it was registered;
 - (b) affixing of the trade-mark to goods or to the packaging thereof solely for export purposes.
3. Use of a trade-mark with the consent of the proprietor or by any person who has authority to use a collective mark or a guarantee or certification mark shall be deemed to constitute use by the proprietor within the meaning of paragraph 1.

*Article 198***Grounds for revocation**

1. The Parties shall provide that a trade-mark shall be liable to revocation if, within a continuous period of five years, it has not been put to genuine use in the relevant territory in connection with the goods or services in respect of which it is registered, and there are no proper reasons for non-use; however, no person may claim that the proprietor's rights in a trade-mark should be revoked where, during the interval between expiry of the five-year period and filing of the application for revocation, genuine use of the trade-mark has been started or resumed; the commencement or resumption of use within a period of three months preceding the filing of the application for revocation which began at the earliest on expiry of the continuous period of five years of non-use, shall, however, be disregarded where preparations for the commencement or resumption occur only after the proprietor becomes aware that the application for revocation may be filed.
2. A trade-mark shall also be liable to revocation if, after the date on which it was registered:
 - (a) in consequence of acts or inactivity of the proprietor, it has become the common name in the trade for a product or service in respect of which it is registered;
 - (b) in consequence of the use made of it by the proprietor of the trade-mark or with his/her consent in respect of the goods or services for which it is registered, it is liable to mislead the public, particularly as to the nature, quality or geographical origin of those goods or services.

*Article 199***Partial refusal, revocation or invalidity**

Where grounds for refusal of registration or for revocation or invalidity of a trade-mark exist in respect of only some of the goods or services for which that trade-mark has been applied for or registered, refusal of registration or revocation or invalidity shall cover those goods or services only.

*Article 200***Term of protection**

The duration of protection available in the EU Party and Ukraine following the date of filing of an application shall amount to at least 10 years. The right holder may have the term of protection renewed for further periods of 10 years.

Sub-section 3

Geographical indications*Article 201***Scope of the Sub-section**

1. This Sub-section applies to the recognition and protection of geographical indications originating in the territories of the Parties.
2. Geographical indications of a Party to be protected by the other Party shall only be subject to this Agreement if covered by the scope of the legislation referred to in Article 202 of this Agreement.

*Article 202***Established geographical indications**

1. Having examined the Ukrainian legislation listed in Annex XXII-A Part A to this Agreement, the EU Party concludes that these laws meet the elements laid down in Annex XXII-A Part B to this Agreement.
2. Having examined the EU Party's legislation listed in Annex XXII-A Part A to this Agreement, Ukraine concludes that these laws meet the elements laid down in Annex XXII-A Part B to this Agreement.
3. Ukraine, after having completed an objection procedure in accordance with the criteria set out in Annex XXII-B to this Agreement and after having examined the geographical indications for the agricultural products and foodstuffs of the EU Party listed in Annex XXII-C to this Agreement and the geographical indications for wines, aromatised wines and spirit drinks of the EU Party listed in Annex XXII-D to this Agreement, which have been registered by the EU Party under the legislation referred to in paragraph 2, shall protect those geographical indications according to the level of protection laid down in this Sub-section.
4. The EU Party, after having completed an objection procedure in accordance with the criteria set out in Annex XXII-B to this Agreement and after having examined the geographical indications for the wines, aromatised wines and spirit drinks of Ukraine listed in Annex XXII-D to this Agreement, which have been registered by Ukraine under the legislation referred to in paragraph 1, shall protect those geographical indications according to the level of protection laid down in this Sub-section.

*Article 203***Addition of new geographical indications**

1. The Parties agree on the possibility of adding new geographical indications to be protected in Annexes XXII-C and XXII-D to this Agreement in accordance with Article 211 (3) of this Agreement after having completed the objection procedure and having examined the geographical indications as referred to in Article 202(3) and (4) of this Agreement to the satisfaction of both Parties.
2. A Party shall not be required to protect as a geographical indication a name that conflicts with the name of a plant variety or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product.

*Article 204***Scope of protection of geographical indications**

1. The geographical indications listed in Annexes XXII-C and XXII-D to this Agreement, including those added pursuant to Article 203 of this Agreement, shall be protected against:
 - (a) any direct or indirect commercial use of a protected name for comparable products not compliant with the product specification of the protected name, or in so far as such use exploits the reputation of a geographical indication;
 - (b) any misuse, imitation or evocation, even if the true origin of the product is indicated or if the protected name is translated, transcribed, transliterated or accompanied by an expression such as "style", "type", "method", "as produced in", "imitation", "flavour", "like", or similar;

- (c) any other false or misleading indication as to the provenance, origin, nature or essential qualities of the product, on the inner or outer packaging, in advertising material or documents relating to the product concerned, and on the packing of the product in a container liable to convey a false impression as to its origin;
- (d) any other practice liable to mislead the consumer as to the true origin of the product.
2. Protected geographical indications shall not become generic in the territories of the Parties.
3. If geographical indications are wholly or partially homonymous, protection shall be granted to each indication provided that it has been used in good faith and with due regard for local and traditional usage and the actual risk of confusion. Without prejudice to Article 23 of the TRIPS Agreement, the Parties shall mutually decide the practical conditions of use under which the homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled. A homonymous name which misleads the consumer into believing that products come from another territory shall not be registered even if the name is accurate as far as the actual territory, region or place of origin of the product in question is concerned.
4. Where a Party, in the context of negotiations with a third country, proposes to protect a geographical indication of the third country, and the name is homonymous with a geographical indication of the other Party the latter shall be informed and be given the opportunity to comment before the name is protected.
5. Nothing in this Agreement shall oblige a Party to protect a geographical indication of the other Party which is not or ceases to be protected in its country of origin. The Parties shall notify each other if a geographical indication ceases to be protected in its country of origin. Such notification shall take place in accordance with Article 211(3) of this Agreement.
6. Nothing in this Agreement shall prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead the public.

Article 205

Right of use of geographical indications

1. The commercial use of a name protected under this Agreement for agricultural products, foodstuffs, wines, aromatised wines or spirit drinks conforming to the corresponding specification is open to any entity.
2. Once a geographical indication is protected under this Agreement, the use of such protected name shall not be subject to any registration of users or further charges.

Article 206

Relationship with trade-marks

1. The Parties shall refuse to register or shall invalidate a trade-mark that corresponds to any of the situations referred to in Article 204(1) of this Agreement in relation to a protected geographical indication for like products, provided an application to register the trade-mark is submitted after the date of application for registration of the geographical indication in the territory concerned.
2. For geographical indications referred to in Article 202 of this Agreement, the date of application for registration shall be the date of entry into force of this Agreement.
3. For geographical indications referred to in Article 203 of this Agreement, the date of application for registration shall be the date of the transmission of a request to the other Party to protect a geographical indication.
4. The Parties shall have no obligation to protect a geographical indication pursuant to Article 203 of this Agreement where, in the light of a reputed or well-known trade-mark, protection is liable to mislead consumers as to the true identity of the product.

5. Without prejudice to paragraph 4 of this Article, the Parties shall protect geographical indications also where a prior trade-mark exists. Prior trade-mark shall mean a trade-mark, the use of which corresponds to one of the situations referred to in Article 204(1) of this Agreement, which has been applied for, registered or established by use, if that possibility is provided for by the legislation concerned, in the territory of one of the Parties before the date on which the application for protection of the geographical indication is submitted by the other Party under this Agreement. Such trade-mark may continue to be used and renewed notwithstanding the protection of the geographical indication, provided that no grounds for the trade-mark's invalidity or revocation exist in the legislation on trade-marks of the Parties.

Article 207

Enforcement of protection

The Parties shall enforce the protection provided for in Articles 204 to 206 of this Agreement by appropriate action by their authorities including at the customs border. They shall also enforce such protection at the request of an interested party.

Article 208

2. Products which were produced and labelled, in conformity with domestic law, with the geographical indications listed in paragraphs 3 and 4 below after this Agreement entered into force and before the termination of the periods referred to in paragraphs 3 and 4 below, but which do not comply with the requirements of this Agreement, may continue to be sold in the territory of the Party where the product originated until stocks run out.

3. For a transitional period of 10 years from the entry into force of this Agreement, the protection pursuant to this Agreement of the following geographical indications of the EU Party shall not preclude these geographical indications from being used in order to designate and present certain comparable products originating in Ukraine:

- (b) Roquefort,
- (c) Feta

Article 209

2. Any matter arising from product specifications of registered geographical indications shall be dealt with in the GI Sub-Committee established pursuant to Article 211 of this Agreement.
3. The registration of geographical indications protected under this Agreement may only be cancelled by the Party in which the product originates.
4. A product specification referred to in this Sub-section shall be that which is approved, including any amendments also approved, by the authorities of the Party in whose territory the product originates.

Article 210

Cooperation and transparency

1. The Parties shall, either directly or through the GI Sub-Committee established pursuant to Article 211 of this Agreement, maintain contact on all matters related to the implementation and functioning of this Agreement. In particular, a Party may request from the other Party information relating to product specifications and their modification, and contact points for control provisions.
2. Each Party may make publicly available the product specifications or a summary thereof and contact points for control provisions corresponding to geographical indications of the other Party protected pursuant to this Agreement.

Article 211

Sub-Committee on Geographical Indications

1. The Sub-Committee on Geographical Indications (GI Sub-Committee) is hereby established. It shall report on its activities to the Association Committee in its configuration under Article 465(4) of this Agreement. The GI Sub-Committee shall consist of representatives of the EU and Ukraine with the purpose of monitoring the development of this Agreement and of intensifying their co-operation and dialogue on geographical indications.
2. The GI Sub-Committee shall adopt its decisions by consensus. It shall determine its own rules of procedure. It shall meet at the request of either of the Parties, alternatively in the European Union and in Ukraine, at a time and a place and in a manner (which may include by videoconference) mutually determined by the Parties, but no later than 90 days after the request.

Sub-section 4

Designs

Article 212

Definition

For the purposes of this Agreement:

- (a) "design" means the appearance of the whole or a part of a product resulting from the features of, in particular, the lines, contours, colours, shape, texture and/or materials of the product itself and/or its ornamentation;
- (b) "product" means any industrial or handicraft item, including inter alia parts intended to be assembled into a complex product, packaging, get-up, graphic symbols and typographic typefaces, but excluding computer programs;
- (c) "complex product" means a product which is composed of multiple components that can be replaced, permitting disassembly and reassembly of the product.

Article 213

Requirements for protection

1. The EU Party and Ukraine shall provide for the protection of independently created designs that are new and have individual character.
2. A design applied to or incorporated in a product which constitutes a component part of a complex product shall only be considered to be new and to have individual character:
 - (a) if the component part, once it has been incorporated into the complex product, remains visible during normal use of the latter; and
 - (b) to the extent that those visible features of the component part fulfil in themselves the requirements as to novelty and individual character.
3. A design shall be considered to be new if no identical design has been made available to the public:
 - (a) in the case of an unregistered design, before the date on which the design for which protection is claimed has first been made available to the public;
 - (b) in the case of a registered design, before the date of filing of the application for registration of the design for which protection is claimed, or, if priority is claimed, the date of priority.

Designs shall be deemed to be identical if their features differ only in immaterial details.

4. A design shall be considered to have individual character if the overall impression it produces on an informed user differs from the overall impression produced on such a user by any other design which has been made available to the public:

- (a) in the case of an unregistered design, before the date on which the design for which protection is claimed has first been made available to the public;
- (b) in the case of a registered design, before the date of filing of the application for registration of the design for which protection is claimed, or, if priority is claimed, the date of priority.

In assessing individual character, the degree of freedom of the designer in developing the design shall be taken into consideration.

5. This protection shall be provided by registration, and shall confer exclusive rights upon their holders in accordance with the provisions of this Article. Unregistered designs made available to the public shall confer the same exclusive rights, but only if the contested use results from copying the protected design.

6. A design shall be deemed to have been made available to the public if it has been published following registration or otherwise, or exhibited, used in trade or otherwise disclosed, except where these events could not reasonably have become known in the normal course of business to the circles specialised in the sector concerned, operating within the territory in which protection is claimed, before the date of filing of the application for registration or, if priority is claimed, the date of priority. In the case of unregistered design protection, a design shall be deemed to have been made available to the public if it has been published, exhibited, used in trade or otherwise disclosed in such way that, in the normal course of business, these events could reasonably have become known to the circles specialised in the sector concerned, operating within the territory in which protection is claimed.

A design shall not, however, be deemed to have been made available to the public for the sole reason that it has been disclosed to a third person under explicit or implicit conditions of confidentiality.

7. Disclosure shall not be taken into consideration for the purpose of applying paragraphs 3 and 4 of this Article if a design for which protection is claimed under a registered design right has been made available to the public:

- (a) by the designer, his/her successor in title, or a third person as a result of information provided or action taken by the designer, or his/her successor in title; and
- (b) during the twelve-month period preceding the date of filing of the application or, if priority is claimed, the date of priority.

8. Paragraph 7 of this Article shall also apply if a design has been made available to the public as a consequence of an abuse in relation to the designer or his/her successor in title.

Article 214

Term of protection

1. The duration of protection available in the EU Party and Ukraine following registration shall amount to at least five years. The right holder may have the term of protection renewed for one or more periods of five years each, up to a total term of 25 years from the date of filing.

2. The duration of protection available in the EU Party and Ukraine for unregistered designs shall amount to at least three years as from the date on which the design was made available to the public in the territory of one of the Parties.

*Article 215***Invalidity or refusal of registration**

1. The EU Party and Ukraine may only provide that a design is refused for registration or declared invalid after registration on substantive grounds in the following cases:

- (a) if the design does not correspond to the definition under Article 212(a) of this Agreement;
- (b) if it does not fulfil the requirements of Article 213 and Article 217 (paragraphs 3, 4 and 5) of this Agreement;
- (c) if, by virtue of a court decision, the right holder is not entitled to the design;
- (d) if the design is in conflict with a prior design which has been made available to the public after the date of filing of the application or, if priority is claimed, the date of priority of the design, and which is protected from a date prior to the said date by a registered design or an application for a design;
- (e) if a distinctive sign is used in a subsequent design, and the law of the Party concerned governing that sign confers on the right holder of the sign the right to prohibit such use;
- (f) if the design constitutes an unauthorised use of a work protected under the copyright law of the Party concerned;
- (g) if the design constitutes an improper use of any of the items listed in Article 6 *ter* of the Paris Convention or of badges, emblems and escutcheons other than those covered by the said Article 6 *ter* and which are of particular public interest in the territory of a Party.

This paragraph is without prejudice to the right of the Parties to set formal requirements for design applications.

2. A Party may provide, as an alternative to invalidity, that a design, which may be invalidated for the reasons set out in paragraph 1 of this Article, may be limited in its use.

*Article 216***Rights conferred**

The holder of a protected design shall at least have the exclusive right to use it and to prevent third parties not having his/her consent from using it, in particular to make, offer, put on the market, import, export or use a product in which the design is incorporated or to which it is applied, or stocking such a product for those purposes.

*Article 217***Exceptions**

1. The rights conferred by a design right upon registration shall not be exercised in respect of:

- (a) acts done privately and for non-commercial purposes;
- (b) acts done for experimental purposes;
- (c) acts of reproduction for the purposes of making citations or of teaching, provided that such acts are compatible with fair trade practice and do not unduly prejudice the normal exploitation of the design, and that mention is made of the source.

2. In addition, the rights conferred by a design right upon registration shall not be exercised in respect of:

- (a) the equipment on ships and aircraft registered in another country when these temporarily enter the territory of the Party concerned;
- (b) the importation by the Party concerned of spare parts and accessories for the purpose of repairing such craft;
- (c) the execution of repairs on such craft.

3. A design right shall not subsist in features of appearance of a product which are solely dictated by its technical function.
4. A design right shall not subsist in features of appearance of a product which must necessarily be reproduced in their exact form and dimensions in order to permit the product in which the design is incorporated or to which it is applied to be mechanically connected to or placed in, around or against another product so that either product may perform its function.
5. A design right shall not subsist in a design which is contrary to public policy or to accepted principles of morality.

Article 218

Relationship to copyright

A design protected by a design right registered in a Party in accordance with this Sub-section shall also be eligible for protection under the law of copyright of that Party as from the date on which the design was created or fixed in any form. The extent to which, and the conditions under which, such protection is conferred, including the level of originality required, shall be determined by each Party.

Sub-section 5

Patents

Article 219

Patents and public health

1. The Parties recognise the importance of the Declaration on the TRIPS Agreement and Public Health, adopted on 14 November 2001 (hereinafter referred to as the "Doha Declaration") by the Ministerial Conference of the WTO. In interpreting and implementing the rights and obligations under this Chapter, the Parties shall ensure consistency with the Doha Declaration.
2. The Parties shall contribute to the implementation of, and shall respect, the Decision of the WTO General Council of 30 August 2003 on paragraph 6 of the Doha Declaration.

Article 220

Supplementary protection certificate

1. The Parties recognise that medicinal and plant protection products protected by a patent in their respective territory may be subject to an administrative authorisation procedure before being put on their market. They recognise that the period that elapses between the filing of the application for a patent and the first authorisation to place the product on their respective market, as defined for that purpose by the relevant legislation, may shorten the period of effective protection under the patent.
2. The Parties shall provide for a further period of protection for a medicinal or plant protection product which is protected by a patent and which has been subject to an administrative authorisation procedure, that period being equal to the period referred to in paragraph 1, reduced by a period of five years.
3. In the case of medicinal products for which paediatric studies have been carried out, and the results of those studies are reflected in the product information, the Parties shall provide for a further six-month extension of the period of protection referred to in paragraph 2 of this Article.

Article 221

Protection of biotechnological inventions

1. Parties shall protect biotechnological inventions under national patent law. They shall, if necessary, adjust their patent law to take account of the provisions of this Agreement. This Article shall be without prejudice to the obligations of the Parties pursuant to international agreements, and in particular the TRIPS Agreement and the Convention on Biological Diversity of 1992 (hereinafter referred to as the "CBD").

2. For the purposes of this Sub-section:

- (a) "biological material" means any material containing genetic information and capable of reproducing itself or being reproduced in a biological system;
- (b) "microbiological process" means any process involving or performed upon or resulting in microbiological material.

3. For the purposes of this Agreement: inventions which are new, which involve an inventive step and which are susceptible of industrial application shall be patentable even if they concern a product consisting of or containing biological material or a process by means of which biological material is produced, processed or used.

Biological material which is isolated from its natural environment or produced by means of a technical process may be the subject of an invention even if it previously occurred in nature.

An element isolated from the human body or otherwise produced by means of a technical process, including the sequence or partial sequence of a gene, may constitute a patentable invention, even if the structure of that element is identical to that of a natural element. The industrial application of a sequence or a partial sequence of a gene must be disclosed in the patent application.

4. The following shall not be patentable:

- (a) plant and animal varieties;
- (b) essentially biological processes for the production of plants or animals;
- (c) the human body, at the various stages of its formation and development, and the simple discovery of one of its elements, including the sequence or partial sequence of a gene.

Inventions which concern plants or animals shall be patentable if the technical feasibility of the invention is not confined to a particular plant or animal variety. Subparagraph (b) of this paragraph shall be without prejudice to the patentability of inventions which concern a microbiological or other technical process or a product obtained by means of such a process.

5. Inventions shall be considered unpatentable where their commercial exploitation would be contrary to public policy or public morality; however, exploitation shall not be thus deemed contrary merely because it is prohibited by law or regulation. The following, in particular, shall be considered unpatentable:

- (a) processes for cloning human beings;
- (b) processes for modifying the germ line genetic identity of human beings;
- (c) uses of human embryos for industrial or commercial purposes;
- (d) processes for modifying the genetic identity of animals which are likely to cause them suffering without any substantial medical benefit to man or animal, and also animals resulting from such processes.

6. The protection conferred by a patent on a biological material possessing specific characteristics as a result of an invention shall extend to any biological material derived from that biological material through propagation or multiplication in an identical or divergent form and possessing those same characteristics.

7. The protection conferred by a patent on a process that enables a biological material possessing specific characteristics to be produced as a result of an invention shall extend to biological material directly obtained through that process and to any other biological material derived from the directly obtained biological material through propagation or multiplication in an identical or divergent form and possessing those same characteristics.

8. The protection conferred by a patent on a product containing or consisting of genetic information shall extend to all material, save as provided in paragraph 4(c) of this Article, in which the product is incorporated and in which the genetic information is contained and performs its function.

9. The protection referred to in paragraphs 7 and 8 of this Article shall not extend to biological material obtained from the propagation or multiplication of biological material placed on the market in the territory of the Parties by the holder of the patent or with his/her consent, where the multiplication or propagation necessarily results from the application for which the biological material was marketed, provided that the material obtained is not subsequently used for other propagation or multiplication.

10. By way of derogation from paragraphs 7 and 8 of this Article, the sale or any other form of commercialisation of plant propagating material to a farmer by the holder of the patent or with his/her consent for agricultural use implies authorisation for the farmer to use the product of his/her harvest for propagation or multiplication by him/her on his/her own farm. The extent and conditions of this derogation shall correspond to the conditions provided for in the Parties' national laws, regulations and practices concerning plant variety rights.

By way of derogation from paragraphs 7 and 8 of this Article, the sale or any other form of commercialisation of breeding stock or other animal reproductive material to a farmer by the holder of the patent or with his/her consent implies authorisation for the farmer to use the protected livestock for an agricultural purpose. This includes making the animal or other animal reproductive material available for the purposes of pursuing agricultural activity but not sale within the framework or for the purpose of a commercial reproduction activity. The extent and the conditions of the derogation provided for above shall be determined by national laws, regulations and practices.

11. The Parties shall provide for compulsory cross-licensing in the following cases:

- (a) where a breeder cannot acquire or exploit a plant variety right without infringing a prior patent, he/she may apply for a compulsory licence for non-exclusive use of the invention protected by the patent inasmuch as the licence is necessary for the exploitation of the plant variety to be protected, subject to payment of an appropriate royalty. The Parties shall provide that, where such a licence is granted, the holder of the patent will be entitled to a cross-licence on reasonable terms to use the protected variety;
- (b) where the holder of a patent concerning a biotechnological invention cannot exploit it without infringing a prior plant variety right, he/she may apply for a compulsory licence for non-exclusive use of the plant variety protected by that right, subject to payment of an appropriate royalty. The Parties shall provide that, where such a licence is granted, the holder of the variety right will be entitled to a cross-licence on reasonable terms to use the protected invention.

12. Applicants for the licences referred to in paragraph 11 of this Article must demonstrate that:

- (a) they have applied unsuccessfully to the holder of the patent or of the plant variety right to obtain a contractual licence;
- (b) the plant variety or the invention constitutes significant technical progress of considerable economic interest compared with the invention claimed in the patent or the protected plant variety.

Article 222

Protection of data submitted to obtain an authorisation to put a medicinal product on the market

1. The Parties shall implement a comprehensive system to guarantee the confidentiality, non-disclosure and non-reliance of data submitted for the purpose of obtaining an authorisation to put a medicinal product on the market.

2. For that purpose, when a Party requires the submission of test data or studies concerning the safety and efficacy of a medicinal product prior to granting approval for the marketing of such product, the Party shall not, for a period of at least five years from the date of the first approval in that Party, permit other applicants to market the same or a similar product, on the basis of the marketing approval granted to the applicant which had provided the test data or studies, unless the applicant which had provided the test data or studies has given consent. During such period, the test data or studies submitted for the first approval will not be used for the benefit of any subsequent applicant aiming to obtain a marketing approval for a medicinal product, except when the consent of the first applicant is given.

3. Ukraine shall undertake to align its legislation concerning data protection for medicinal products with that of the EU at a date to be decided by the Trade Committee.

Article 223

Data protection on plant protection products

1. The Parties shall determine safety and efficacy requirements before authorising the placing on the market of plant protection products.

2. The Parties shall recognise a temporary right to the owner of a test or study report submitted for the first time to achieve a marketing authorisation for a plant protection product. During such period, the test or study report will not be used for the benefit of any other person aiming to obtain a marketing authorisation for a plant protection product, except when the explicit consent of the first owner is given. This right will be hereinafter referred to as "data protection".

3. The Parties shall determine the conditions to be fulfilled by the test or study report.

4. The period of data protection should be at least 10 years starting from the date of the first authorisation in the Party concerned. The Parties may decide to provide an extension of the period of protection for low-risk plant protection products. In such a situation, the period can be extended to 13 years.

5. The Parties may decide that those periods shall be extended for each extension of authorisation for minor uses ⁽¹⁾. In such a situation, the total period of data protection may in no case exceed 13 years or, for low-risk plant protection products, 15 years.

6. A test or study shall also be protected if it was necessary for the renewal or review of an authorisation. In those cases, the period for data protection shall be 30 months.

7. Rules to avoid duplicative testing on vertebrate animals will be laid down by the Parties. Any applicant intending to perform tests and studies involving vertebrate animals shall take the necessary measures to verify that those tests and studies have not already been performed or initiated.

8. A new applicant and the holder or holders of the relevant authorisations shall make every effort to ensure that they share tests and studies involving vertebrate animals. 11. The holder or holders of the relevant authorisation shall have a claim on the new applicant for a fair share of the costs incurred by him/her. The Party concerned may direct the parties involved to resolve the matter by formal and binding arbitration administered under national law.

2. Under the same conditions, the Parties shall take such measures as are necessary, in the case of an infringement of an intellectual property right committed on a commercial scale, to enable the competent judicial authorities to order, where appropriate and following an application, the communication of banking, financial or commercial documents under the control of the opposing party, subject to the protection of confidential information.

*Article 234***Measures for preserving evidence**

1. The Parties shall ensure that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, on application by a party who has presented reasonably available evidence to support the claim that his/her intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information. Such measures may include the detailed description, with or without the taking of samples, or the physical seizure of the alleged infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of these goods and the documents relating thereto. Those measures shall be taken, if necessary without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

2. The Parties shall ensure that the measures to preserve evidence are revoked or otherwise cease to have effect, upon request of the defendant, without prejudice to the damages which may be claimed, if the applicant does not institute, within a reasonable period, proceedings leading to a decision on the merits before the competent judicial authority.

*Article 235***Right to information**

1. The Parties shall ensure that, in the context of proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order that information on the origin and distribution networks of the goods or services which infringe an intellectual property right be provided by the infringer and/or any other person who:

(e) govern the protection of confidentiality of information sources or the processing of personal data.

Article 236

Provisional and precautionary measures

1. The Parties shall ensure that the judicial authorities may, at the request of the applicant issue an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, or to forbid, on a provisional basis, and subject, where appropriate, to a recurring penalty payment where provided for by domestic law, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An interlocutory injunction may also be issued, under the same conditions, against an intermediary whose services are being used by a third party to infringe an intellectual property right.

2. An interlocutory injunction may also be issued to order the seizure or delivery up of the goods suspected of infringing an intellectual property right so as to prevent their entry into or movement within the channels of commerce.

3. In the case of an infringement committed on a commercial scale, the Parties shall ensure that, if the applicant demonstrates circumstances likely to endanger the recovery of damages, the judicial authorities may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of his/her bank accounts and other assets. To that end, the competent authorities may order the communication of bank, financial or commercial documents, or appropriate access to the relevant information.

4. The Parties shall ensure that the provisional measures referred to in paragraphs 1, 2 and 3 of this Article may, in appropriate cases, be taken without the defendant having been heard, in particular where any delay would cause irreparable harm to the right holder. In that event, the Parties shall be so informed without delay after the execution of the measures at the latest. A review, including a right to be heard, shall take place upon request of the defendant with a view to deciding, within a reasonable time after notification of the measures, whether those measures shall be modified, revoked or confirmed.

5. The Parties shall ensure that the provisional measures referred to in paragraphs 1, 2 and 3 of this Article are revoked or otherwise cease to have effect, upon request of the defendant, if the applicant does not institute, within a reasonable period, proceedings leading to a decision on the merits of the case before the competent judicial authority.

6. Where the provisional measures are revoked or where they lapse due to any act or omission by the applicant, or where it is subsequently found that there has been no infringement or threat of infringement of an intellectual property right, the judicial authorities shall have the authority to order the applicant, upon request of the defendant, to provide the defendant appropriate compensation for any injury caused by those measures.

*Article 237***Corrective measures**

1. The Parties shall ensure that the competent judicial authorities may order, at the request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort, the recall from the channels of commerce, the definitive removal from the channels of commerce or the destruction of goods that they have found to be infringing an intellectual property right. If appropriate, the competent judicial authorities may also order destruction of materials and implements principally used in the creation or manufacture of those goods.
2. The judicial authorities shall order that those measures shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

*Article 238***Injunctions**

Where provided for by domestic law, non-compliance with an injunction shall, where appropriate, be subject to a recurring penalty payment, with a view to ensuring compliance. The Parties shall also ensure that right holders are in a position to apply for an injunction against intermediaries whose services are used by a third party to infringe an intellectual property right.

*Article 239***Alternative measures**

The Parties may provide that, in appropriate cases and at the request of the person liable to be subject to the measures provided for in Article 237 and/or Article 238 of this Agreement, the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in Article 237 and/or Article 238 of this Agreement if that person acted unintentionally and without negligence, if execution of the measures in question would cause him disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

*Article 240***Damages**

1. The Parties shall ensure that when the judicial authorities set damages:
 - (a) they shall take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement; or
 - (b) as an alternative to subparagraph (a) of this paragraph, they may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.
2. Where the infringer did not knowingly, or with reasonable grounds to know, engage in infringing activity, the Parties may lay down that the judicial authorities may order in favour of the injured party the recovery of profits or the payment of damages which may be pre-established.

*Article 241***Legal costs**

The Parties shall ensure that reasonable and proportionate legal costs and other expenses incurred by the successful party shall as a general rule be borne by the unsuccessful party, unless this would be contrary to the principle of equity.

*Article 242***Publication of judicial decisions**

The Parties shall ensure that, in legal proceedings instituted for infringement of an intellectual property right, the judicial authorities may order, at the request of the applicant and at the expense of the infringer, appropriate measures for disseminating the information concerning the decision, including displaying the decision and publishing it in full or in part. The Parties may provide for other additional publicity measures which are appropriate to the particular circumstances, including prominent advertising.

*Article 243***Administrative procedures**

To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, such procedures shall conform to principles equivalent in substance to those set forth in the relevant provisions of this Sub-section.

Sub-section 2

Liability of intermediary service providers*Article 244***Use of intermediaries' services**

To ensure the free movement of information services and at the same time enforce intellectual property rights in the digital environment, each Party shall provide for the measures set out in this Sub-section in respect of intermediary service providers. This Sub-section only applies to liability that could result from infringements in the field of intellectual property rights, in particular copyright ⁽¹⁾.

*Article 245***Liability of intermediary service providers: "Mere conduit"**

1. Where an information society service that is provided consists of the transmission in a communication network of information provided by a recipient of the service, or the provision of access to a communication network, the Parties shall ensure that the service provider is not liable for the information transmitted, on condition that the provider:

- (a) does not initiate the transmission;
- (b) does not select the receiver of the transmission; and
- (c) does not select or modify the information contained in the transmission.

2. The acts of transmission and of provision of access referred to in paragraph 1 of this Article include the automatic, intermediate and transient storage of the information transmitted in so far as this takes place for the sole purpose of carrying out the transmission in the communication network, and provided that the information is not stored for any period longer than is reasonably necessary for such transmission.

3 This Article shall not affect the possibility for a court or administrative authority, in accordance with the Parties legal systems, to require the service provider to terminate or prevent an infringement.

⁽¹⁾ The exemptions from liability established in this Article cover only cases where the activity of the information society service provider is limited to the technical process of operating and giving access to a communication network over which information made available by third parties is transmitted or temporarily stored, for the sole purpose of making the transmission more efficient; this activity is of a mere technical, automatic and passive nature, which implies that the information society service provider has neither knowledge of nor control over the information which is transmitted or stored.

*Article 246***Liability of intermediary service providers: "Caching"**

1. Where an information society service that is provided consists of the transmission in a communication network of information provided by a recipient of the service, the Parties shall ensure that the service provider is not liable for the automatic, intermediate and temporary storage of that information, performed for the sole purpose of making more efficient the information's onward transmission to other recipients of the service at their request, on condition that:

- (a) the provider does not modify the information;
- (b) the provider complies with conditions on access to the information;
- (c) the provider complies with rules regarding the updating of the information, specified in a manner widely recognised and used by industry;
- (d) the provider does not interfere with the lawful use of technology, widely recognised and used by industry, to obtain data on the use of the information; and
- (e) the provider acts expeditiously to remove or to disable access to the information it has stored upon obtaining actual knowledge of the fact that the information at the initial source of the transmission has been removed from the network, or access to it has been disabled, or that a court or an administrative authority has ordered such removal or disablement.

2. This Article shall not affect the possibility for a court or administrative authority, in accordance with Parties' legal systems, of requiring the service provider to terminate or prevent an infringement.

*Article 247***Liability of intermediary service providers: "Hosting"**

1. Where an information society service is provided that consists of the storage of information provided by a recipient of the service, the Parties shall ensure that the service provider is not liable for the information stored at the request of a recipient of the service, on condition that:

- (a) the provider does not have actual knowledge of illegal activity or information and, as regards claims for damages, is not aware of facts or circumstances from which the illegal activity or information is apparent; or
- (b) the provider, upon obtaining such knowledge or awareness, acts expeditiously to remove or to disable access to the information.

2. Paragraph 1 of this Article shall not apply when the recipient of the service is acting under the authority or the control of the provider.

3. This Article shall not affect the possibility for a court or administrative authority, in accordance with the Parties' legal systems, to require the service provider to terminate or prevent an infringement, nor does it affect the possibility of the Parties establishing procedures governing the removal or disablement of access to information.

*Article 248***No general obligation to monitor**

1. The Parties shall not impose, on providers of services covered by Articles 245, 246 and 247 of this Agreement, a general obligation to monitor the information which they transmit or store, nor a general obligation actively to seek facts or circumstances indicating illegal activity.

2. The Parties may establish obligations for information society service providers promptly to inform the competent public authorities of alleged illegal activities undertaken or information provided by recipients of their service or obligations to communicate to the competent authorities, at their request, information enabling the identification of recipients of their service with whom they have storage agreements.

 - (b) a court or other independent tribunal established under that Party's laws imposes or, at the person's request, reviews any such sanction or remedy.

Article 258

Section 2

State aid

Article 262

General principles

1. Any aid granted by Ukraine or the Member States of the European Union through state resources which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods is incompatible with the proper functioning of this Agreement insofar as it may affect trade between the Parties.

2. However, the following shall be compatible with the proper functioning of this agreement:

- (a) aid having a social character, granted to individual consumers, provided that such aid is granted without discrimination related to the origin of the products concerned;
- (b) aid to make good the damage caused by natural disasters or exceptional occurrences.

3. Moreover, the following may be considered to be compatible with the proper functioning of this Agreement:

- (a) aid to promote the economic development of areas where the standard of living is abnormally low or where there is serious underemployment;
- (b) aid to promote the execution of an important project in the common European interest ⁽¹⁾ or to remedy a serious disturbance in the economy of one of the Member States of the European Union or Ukraine;
- (c) aid to facilitate the development of certain economic activities or of certain economic areas where such aid does not adversely affect trading conditions contrary to the interests of the Parties;
- (d) aid to promote culture and heritage conservation where such aid does not adversely affect trading conditions contrary to the interests of the Parties;
- (e) aid to achieve objectives allowed under the EU horizontal block exemption regulations and horizontal and sectoral state aid rules granted in line with the conditions set out therein;
- (f) aid for investment to comply with the mandatory standards of the EU directives listed in Annex XXIX to Chapter 6 (Environment) of Title V of this Agreement, within the implementation period provided for therein, and involving adaptation of plant and equipment to meet the new requirements, can be authorised up to the level of 40 % gross of the eligible costs.

⁽¹⁾ For the purposes of this provision, the common European interest shall encompass the common interest of the Parties.

4. Undertakings entrusted with the operation of services of general economic interest or having the character of a revenue-producing monopoly shall be subject to the rules contained in this Section, in so far as the application of such rules does not obstruct the performance, in law or in fact, of the particular tasks assigned to them. The development of trade must not be affected to such an extent as would be contrary to the interests of the Parties.

Terms used in this Section are further explained in Annex XXIII.

Article 263

Transparency

1. Each Party shall ensure transparency in the area of state aid. To this end, each Party shall notify annually to the other Party the total amount, types and the sectoral distribution of state aid which may affect trade between the Parties. Respective notifications should contain information concerning the objective, form, the amount or budget, the granting authority and where possible the recipient of the aid. For the purposes of this Article, any aid below the threshold of EUR 200.000 per undertaking over a period of three years does not need to be notified. Such notification is deemed to have been provided if it is sent to the other Party, or if the relevant information is made available on a publicly accessible internet website, by 31 December of the subsequent calendar year.

2. Upon request by a Party, the other Party shall provide further information on any state aid scheme and particular individual cases of state aid affecting trade between the Parties. The Parties shall exchange this information taking into account the limitations imposed by the requirements of professional and business secrecy.

3. The Parties shall ensure that financial relations between public authorities and public undertakings are transparent, so that the following emerge clearly:

- (a) public funds made available directly or indirectly (for example through the intermediary of public undertakings or financial institutions) by public authorities to the public undertakings concerned;
- (b) the use to which these public funds are actually put into.

4. The Parties shall moreover ensure that the financial and organisational structure of any undertaking that enjoys a special or exclusive right granted by Ukraine or the Member States of the European Union or is entrusted with the operation of a service of general economic interest, that receives public service compensation in any form whatsoever in relation to such service, is correctly reflected in separate accounts, so that the following emerge clearly:

- (a) the costs and revenues associated with all products or services in respect of which a special or exclusive right is granted to an undertaking or all services of general economic interest with which an undertaking is entrusted and, on the other hand, each other separate product or service in respect of which the undertaking is active;
- (b) full details of the methods by which costs and revenues are assigned or allocated to different activities. These methods shall operate on the basis of accounting principles of causality, objectivity, transparency and consistency, according to internationally recognised accounting methodologies such as activity based costing, and be based on audited data.

5. Each Party shall ensure that the provisions of this Article are applied within five years of the entry into force of this Agreement.

Article 264

Interpretation

The Parties agree that they will apply Article 262, Article 263(3) or Article 263(4) of this Agreement using as sources of interpretation the criteria arising from the application of Articles 106, 107 and 93 of the Treaty on the Functioning of the European Union, including the relevant jurisprudence of the Court of Justice of the European Union, as well as relevant secondary legislation, frameworks, guidelines and other administrative acts in force in the European Union.

*Article 266***Scope**

The provisions of this Section shall apply to goods and to those services which have been listed in Annex XVI to Chapter 6 (Establishment, Trade in Services and Electronic Commerce) of Title IV of this Agreement, in accordance with the mutually agreed decision on market access, with the exception of subsidies to products covered by Annex 1 to the WTO Agreement on Agriculture and other subsidies covered by the Agreement on Agriculture.

*Article 267***Domestic system of state aid control**

To comply with the obligations of Articles 262 to 266 of this Agreement:

Ukraine shall in particular adopt national state aid legislation, and establish an operationally independent authority which is entrusted with the powers necessary for the full application of Article 262 of this Agreement within three years of the entry into force of this Agreement. This authority shall have, inter alia, the powers to authorise state aid schemes and individual aid grants in conformity with the criteria referred to in Articles 262 and 264 of this Agreement as well as the powers to order the recovery of state aid that has been unlawfully granted. Any new aid granted in Ukraine must be consistent with the provisions of Articles 262 and 264 of this Agreement within one year of the date of establishment of the authority.
2. Ukraine shall establish, within five years of the entry into force of this Agreement, a comprehensive inventory of aid schemes instituted before the establishment of the authority referred to in paragraph 1 and shall align such aid schemes with the criteria referred to in Articles 262 and 264 of this Agreement within a period of no more than seven years from the entry into force of this Agreement.
3. (a) For the purposes of applying Article 262 of this Agreement, the Parties recognise that during the first five years after the entry into force of this Agreement, any public aid granted by Ukraine shall be assessed taking into account the fact that Ukraine shall be regarded as an area identical to those areas of the European Union described in Article 107(3)(a) of the Treaty on the Functioning of the European Union.

(b) Within four years of the entry into force of this Agreement, Ukraine shall submit to the European Commission its gross domestic product *per capita* figures harmonised at NUTS II level. This suspension may take effect immediately. Such suspension may be maintained for no longer than three months, unless the Party complained against has not complied with the panel's report.

3. Should the Party complained against dispute the existence of a failure to comply or the level of suspension due to the failure to comply, it may initiate proceedings under Articles 315 or 316 of this Agreement which shall be examined on an expeditious basis. The complaining party shall be required to remove or adjust the suspension only once the Panel has ruled on the matter, and may maintain the suspension pending the proceedings.

1. If the Party complained against fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that any measure notified under Article 313(1) of this Agreement is inconsistent with that Party's obligations under the provisions of the Agreement referred to in Article 304, the Party complained against shall, if so requested by the complaining Party, present an offer for temporary compensation.

3. In suspending obligations, the complaining Party may choose to increase its tariff rates to the level applied to other WTO Members on a volume of trade to be determined in such a way that the volume of trade multiplied by the increase of the tariff rates equals the value of the nullification or impairment caused by the violation.

4. Such request shall be notified to the complaining Party and to the Trade Committee before the expiry of the 10-day period referred to in paragraph 2 of this Article. In such cases, the period for notifying the ruling shall be 45 days from the date of the submission of the request referred to in paragraph 4 of this Article.

6. The suspension of obligations shall be temporary and shall be applied only until any measure found to be inconsistent with the provisions of the Agreement referred to in Article 304 has been withdrawn or amended, so as to achieve conformity with the provisions of the Agreement referred to in Article 304, as established under Article 316, or until the Parties have agreed to settle the dispute.

Such request shall be notified simultaneously to the Party complained against and to the Trade Committee. The arbitration panel ruling shall be notified to the Parties and to the Trade Committee within 45 days of the date of submission of the request. If the arbitration panel rules that the Party complained against has brought itself into conformity with the Agreement, or if the complaining Party does not, within 45 days of the submission of the notification referred to in paragraph 1 of this Article, request that the original arbitration panel rule on the matter, the suspension of obligations shall be terminated within 15 days of either the ruling of the arbitration panel or the end of the 45-day period.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 307 of this Agreement shall apply. ANNEX I-B TO CHAPTER 1

ADDITIONAL CONDITIONS OF TRADE FOR WORN CLOTHING*Article 1*

The Parties agreed on the following special conditions of trade for worn clothing in preferential trade between the Parties:

1. For the worn clothing (Ukraine customs code 6309 00 00) Ukraine will eliminate customs duties on imports in accordance with the following conditions:
 - until 1 January of the year following the entry into force of this Agreement Ukraine applies import duties valid for the moment of entering into force of this Agreement;
 - from 1 January of the year following the entry into force of this Agreement, Ukraine shall, within 5 years, reduce duties on imports by 1 percentage point per annum during the first four years and shall abolish them not later than the end of the fifth year.
 2. Along with the annual reduction of import duties Ukraine will introduce the entry price determined in euro per kilogram of net weight. During the transitional period of elimination of the duties, the MFN customs duties will be charged on imports of products the value of which is below the entry price as defined in paragraph 3 of this Article.
 3. Ukraine will publish on 1 January of every year the annual average price of two years before (Y-2) of the products falling under the custom codes mentioned in paragraph 4 of this Article. This average will be the basis for the calculation of the entry price of products falling under the customs code mentioned in paragraph 1 of this Article. The established entry price will be applicable in the entire customs territory of Ukraine for the entire year.
 4. The rate of the entry price will be defined as 30 % of the average for the preceding year customs value of the clothes falling within the following Ukrainian customs codes: 6101, 6102, 6103, 6104, 6105, 6106, 6109, 6110, 6111, 6112, 6114, 6116, 6117, 6201, 6202, 6203, 6204, 6205, 6206, 6209, 6210, 6211, 6214, 6217.

ANNEX I-D TO CHAPTER 1

SAFEGUARD MEASURES FOR EXPORT DUTIES

1. During the fifteen (15) years following the EIF of the Agreement, Ukraine may apply a safeguard measure in the form of a surcharge to the export duty on the goods listed in Annex I-D, consistent with paragraphs 1 through 11, if during any 1-year period following the EIF the cumulative volume of exports from Ukraine to EU under each listed Ukrainian customs code exceeds a trigger level, as set out in its Schedule included in Annex I-D.
2. The surcharge Ukraine may apply under paragraph 1 shall be set according to its Schedule included in Annex I-D and can only be applied for the remainder of the period as defined in paragraph 1.
3. Ukraine shall apply any safeguard measure in a transparent manner. For this purpose, Ukraine shall as soon as possible provide written notification to the EU of its intention to apply such a measure and provide all the pertinent information including the volume (in tons) of domestic production or collection of materials, and the volume of exports to the European Union and to the world. Ukraine shall invite the European Union for consultations as far in advance of taking such measure as practicable in order to discuss this information. No measure shall be taken within 30 working days after the invitation for consultations.
4. Ukraine shall ensure that the statistics that are used as evidence for such measures are reliable, adequate and publicly accessible in a timely manner. Ukraine shall provide without delay quarterly statistics on volumes (in tons) of exports to the European Union and to the world.
5. The implementation and operation of Article 31 of this Agreement and related Annexes may be the subject of discussion and review in the Trade Committee referred to in Article 465 of this Agreement.
6. Any supplies of the goods in question which were en route on the basis of a contract made before the surcharge is imposed under paragraphs 1 through 3, shall be exempted from any such surcharge.

Schedule of Ukraine: Subject Goods, Trigger Levels and Maximum Safeguard Duties

Note: The tables below apply if the EIF of the Agreement takes place between 1 January 2013 and 15 May 2014. Should the EIF not take place within this time span, the table would need to be recalculated in order to maintain the relative preference (same proportion) compared to the WTO-bound export duty rates applicable for each period.

7. This Annex sets out: those originating goods that may be subject to safeguard measures under Article 31 of this Agreement, the trigger levels for applying such measures defined for each of the Ukrainian customs code quoted, and the maximum surcharge to export duty that may be applied each 1-year period for each such good in addition to export duty. All duties are expressed in % unless otherwise specified; EIF refers to the 12-month period following the date of entry into force of the Agreement; EIF+1 refers to the 12-month period beginning on the first anniversary of entry into force of the Agreement; and so on until EIF+15.

- (d) Verification in accordance with the provisions of Article 71 of the Agreement by the importing Party may be part of the provisional approval procedure. This verification concerns the structure and organization of the competent authority responsible for the approval of the establishment as well as the powers available to that competent authority and the guarantees that it can provide in regard to the implementation of importing Party's rules. These checks may include on the spot inspection of a certain representative number of establishments appearing on the list or lists provided by the exporting Party.

Taking into account the specific structure and division of competence within the European Union, such verification in the European Union may concern individual Member States.

ANNEX IX TO CHAPTER 4

PROCESS OF DETERMINATION OF EQUIVALENCE**1. Principles**

- (a) Equivalence can be determined for an individual measure or groups of measures or systems related to a certain commodity or categories of commodities or all of them;
- (b) The consideration of equivalence by the importing Party of a request by the exporting Party for recognition of its measures with regards to a specific commodity shall not be a reason to disrupt trade or suspend on-going imports from the exporting party of the commodity in question;
- (c) Determination of equivalence of measures is an interactive process between the exporting Party and the importing Party. The process consists of an objective demonstration of equivalence of individual measures by the exporting Party and the objective assessment of this demonstration with a view to the possible recognition of equivalence by the importing Party;
- (d) The final recognition of equivalence of the relevant measures of the exporting Party rests solely with the importing Party.

2. Preconditions

- (a) The process depends on the health or pest status, the legislation and the effectiveness of the inspection and control system related to the commodity in the exporting Party. To this end the legislation in the sector concerned shall be taken into account, as well as the structure of the competent authority of the exporting Party, the command chain, authority, operational procedures and resources, and the performance of the competent authorities as regards inspection and control systems, including the level of enforcement related to the commodity and the regularity and rapidity of information to the importing Party in case of identified hazards. This recognition may be supported by documentation, verification and earlier documented experience;
- (b) The Parties shall initiate the process of determination of equivalence based upon the priorities established in Article 66 (4) of the Agreement.
- (c) The exporting Party shall only initiate the process when no safeguard measures imposed by the importing Party apply to the exporting Party as regards the commodity.

3. The process

- (a) The exporting Party initiates the process by submitting to the importing Party a request for recognition of equivalence of an individual measure or groups of measures or systems for a commodity or a category of commodities in a sector or sub-sector or all of them;
- (b) When appropriate, this request includes also the request and required documentation for approval by the importing Party on the basis of equivalence of any program or plan of the exporting Party required by the importing Party as a condition for allowing import of that commodity or categories of commodities;
- (c) With this request, the exporting Party:
 - (i) explains the importance for trade of that commodity or categories of commodities;
 - (ii) identifies the individual measure(s) with which it can comply with out of the total of the measures expressed in the import conditions of the importing Party applicable to that commodity or categories of commodities;
 - (iii) identifies the individual measure(s) for which it seeks equivalence out of the total of the measures expressed in the import conditions of the importing Party, applicable to that commodity or categories of commodities;

- (d) In reply to this request, the importing Party explains the overall and individual objective and the rationale behind its measure(s), including the identification of the risk;
- (e) With this explanation, the importing Party informs the exporting Party on the relationship of the domestic measures and the import conditions for that commodity or categories of commodities;
- (f) The exporting Party objectively demonstrates to the importing Party that the measures that it has identified are equivalent to the import conditions for that commodity or categories of commodities;
- (g) The importing Party objectively assesses the demonstration of equivalence by the exporting party;
- (h) The importing Party concludes whether equivalence is achieved or not;
- (i) The importing Party provides to the exporting Party full explanation and supporting data for its determination and decision if so required by the exporting Party;

4. Demonstration of equivalence of measures by the exporting party and assessment of this demonstration by the importing Party

- (a) The exporting Party shall objectively demonstrate equivalence for each of the identified measures of the importing Party expressed in its import conditions. When appropriate, equivalence shall objectively be demonstrated for any plan or program required by the importing Party as a condition to allow import (e.g. residue plan, etc);
- (b) Objective demonstration and assessment in this context should be based, as far as possible, on:
 - internationally recognised standards; and/or standards based on proper scientific evidence; and/or
 - risk assessment; and/or
 - objective earlier documented experience; and
 - legal status or level of administrative status of the measures; and
 - level of implementation and enforcement on the basis of in particular:
 - corresponding results of surveillance and monitoring programmes;
 - inspection results by the exporting Party;
 - results of analysis with recognised analysis methods;
 - verification and import check results by the importing Party;
 - the performance of the competent authorities of the exporting Party; and
 - earlier experiences.

5. Judgment by the importing Party

In case the importing Party arrives at a negative conclusion, it shall provide the exporting Party with a detailed and reasoned explanation.

6. For plants and plant products, equivalence concerning phytosanitary measures, shall be based on relevant ISPMs.

ANNEX X TO CHAPTER 4

GUIDELINES FOR CONDUCTING VERIFICATIONS

Verifications may be carried out on the basis of or audits and/or on the spot checks.

For the purposes of this Annex:

- (a) the "auditee" is the Party subject to the verification;
- (b) the "auditor" is the Party that carries out the verification

1. General principles of verification

- 1.1. Verifications should be carried out in cooperation between the auditor and the auditee in accordance with the provisions set out in this Annex.
- 1.2. Verifications should be designed to check the effectiveness of the controls of the auditee rather than to reject individual animals, groups of animals, consignments of food establishments or individual lots of plants or plant products. Where verification reveals a serious risk to animal, plant or human health, the auditee shall take immediate corrective action. The process may include study of the relevant regulations, method of implementation, assessment of the end result, level of compliance and subsequent corrective actions.
- 1.3. The frequency of verifications should be based on performance. A low level of performance should result in an increased frequency of verifications; unsatisfactory performance must be corrected by the auditee to the auditor's satisfaction.
- 1.4. Verifications, and the decisions based on them, shall be made in a transparent and consistent manner without undue delay and in no less favorable manner for imported products than for like domestic products.

2. Principles relating to the auditor

The auditors should prepare a plan, in accordance with recognized international standards where applicable, that covers the following points:

- 2.1. the subject, depth and scope of the verification;
- 2.2. the date and place of the verification, along with a timetable up to and including the issue of the final report;
- 2.3. the language or languages in which the verification will be conducted and the report written;
- 2.4. the identity of the auditors including, if a team approach is used, the leader thereof. Specialized professional skills may be required to carry out verification of specialized systems and programmes;
- 2.5. a schedule of meetings with officials and visits to establishments or facilities, as appropriate. The identity of establishments or facilities to be visited need not be stated in advance;
- 2.6. subject to provisions on freedom of information, respect of commercial confidentiality shall be observed by the auditor. Conflicts of interest must be avoided;
- 2.7. respect of the rules governing occupational health and safety, and the rights of the operator. This plan should be reviewed in advance with representatives of the auditee.

3. Principles relating to the auditee

The following principles apply to actions taken by the auditee, in order to facilitate verification:

- 3.1. The auditee must cooperate fully with the auditor and should nominate personnel responsible for this task.

Cooperation may include, for example:

- access to all relevant regulations and standards;
- access to compliance programmes and appropriate records and documents;
- access to audit and inspection reports;
- documentation concerning corrective actions and sanctions;
- facilitating entry to establishments.

3.2. The auditee must operate a documented programme to demonstrate to the auditor that standards are being met on a consistent and uniform basis.

4. **Procedures**

4.1. Opening meeting

An opening meeting should be held between representatives of the Parties. At this meeting the auditor shall be responsible for reviewing the verification plan and confirming that adequate resources, documentation, and any other necessary facilities are available for conducting the verification.

4.2. Document review

The document review may consist of a review of the documents and records referred to in paragraph 3.1, the structures and powers of the auditee, and any relevant changes to inspection and certification systems since the entry into force of this Agreement or since the previous verification, with emphasis on the implementation of elements of the system of inspection and certification for animals, animal products plants or plant products of interest. This may include an examination of relevant inspection and certification records and documents.

4.3. On the spot checks

4.3.1. The decision to include this step should be based on a risk assessment, taking into account factors such as the animals, animal products, plants or plant products concerned, the history of conformity with requirements by the industry sector or exporting Party, the volume of product produced and imported or exported, changes in infrastructure and the national inspection and certification systems.

4.3.2. On the spot checks may involve visits to production and manufacturing facilities, food-handling or storage areas and control laboratories to check on compliance with the information contained in the documentary material referred to in paragraph 4.2.

4.4. Follow-up verification

Where a follow-up verification is being conducted in order to verify the correction of deficiencies, it may be sufficient to examine only those points which have been found to require correction.

5. **Working documents**

Forms for reporting audit findings and conclusions should be standardized as much as possible in order to make the approach to verification more uniform, transparent and efficient. The working documents may include any checklists of elements to evaluate. Such checklists may cover:

- legislation;
- structure and operations of inspection and certification services;
- establishment details and working procedures, health statistics, sampling plans and results;
- compliance action and procedures;
- reporting and complaint procedures; and
- training programmes.

6. **Closing meeting**

A closing meeting shall be held between representatives of the Parties, including, where appropriate, officials responsible for the national inspection and certification programs. At this meeting the auditor shall present the findings of the verification. The information shall be presented in a clear, concise manner so that the conclusions of the audit are clearly understood. An action plan for correction of any deficiencies noted shall be drawn up by the auditee, preferably with target dates for completion.

7. **Report**

The draft report of verification shall be forwarded to the auditee within 20 working days. The auditee shall have 25 working days to comment on the draft report. Comments made by the auditee shall be attached to and, where appropriate included in the final report. However, where a significant public, animal or plant health risk has been identified during the verification, the auditee shall be informed as quickly as possible and in any case within 10 working days following the end of the verification.

ANNEX XI TO CHAPTER 4

IMPORT CHECKS AND INSPECTION FEES**A. Principles of import checks**

Import checks consist of documentary checks, identity checks and physical checks

As regards animals and animal products, the physical checks and its frequency applied shall be based on the risk associated with such imports.

In the event that the checks reveal non-conformity with the relevant standards and/or requirements, the importing Party shall take measures proportionate to the risk involved. Wherever possible, the importer or his representative shall be given access to the consignment and the opportunity to contribute any relevant information to assist the importing Party in taking a final decision concerning the consignment. Such decision shall be proportional to the risk.

ANNEX XII TO CHAPTER 4

CERTIFICATION**A. Principles of certification**

Plants and plant products and other objects:

In respect of certification of plants and plant products and other objects, the competent authorities shall apply the principles laid down in the relevant ISPMs

Animals and animal products:

1. The competent authorities of the Parties shall ensure that certifying officers have a satisfactory knowledge of the veterinary legislation as regards the animals or animal products to be certified and, in general, are informed as to the rules to be followed for drawing up and issuing the certificates and - if necessary - as to the nature and extent of the enquiries, tests or examinations which should be carried out before certification.
2. Certifying officers must not certify data of which they have no personal knowledge or which cannot be ascertained by them.
3. Certifying officers must not sign blank or incomplete certificates, or certificates relating to animals or animal products, which they have not inspected or which have passed out of their control. Where a certificate is signed on the basis of another certificate or attestation, the certifying officer shall be in possession of that document before signing.
4. A certifying officer may certify data which have been:
 - (a) ascertained on the basis of paragraphs 1 to 3 by another person so authorized by the competent authority and acting under the control of that authority, provided that certifying authority can verify the accuracy of the data; or
 - (b) obtained, within the context of monitoring programmes, by reference to officially recognized quality assurance schemes or by means of an epidemiological surveillance system where this is authorized under veterinary legislation.
5. The competent authorities of the Parties shall take all necessary steps to ensure the integrity of certification. In particular they shall ensure that certifying officers designated by them:
 - (a) have a status which ensures their impartiality and have no direct commercial interest in the animals or products being certified or in the holdings or establishments in which they originate; and
 - (b) are fully aware of the significance of the contents of each certificate which they sign.
6. Certificates shall be drawn up as to ensure a link between the certificate and the consignment, at least in a language understood by the certifying officer and at least in one of the official languages of the importing Party as set out in part C of this Annex.
7. Each competent authority shall be in a position to link certificates with the relevant certifying officer and ensure that a copy of all certificates issued is available for a period to be determined by it.
8. Each Party shall introduce such checks and have such control measures taken as are necessary to prevent the issuing of false or misleading certification and the fraudulent production or use of certificates purported to be issued for the purposes of veterinary legislation.

9. Without prejudice to any legal proceedings or penalties, the competent authorities shall carry out investigations or checks and take appropriate measures to penalize any instances of false or misleading certification, which are brought to their attention. Such measures may include the temporary suspension of the certifying officers from their duties until the investigation is over. In particular:

- (a) if it is found in the course of the checks that a certifying officer has knowingly issued a fraudulent certificate, the competent authority shall take all necessary steps to ensure, as far as is possible, that the person concerned cannot repeat the offence;
- (b) if it is found in the course of the checks that an individual or an undertaking has made fraudulent use of or has altered an official certificate, the competent authority shall take all necessary measures to ensure, as far as possible, that the individual or undertaking cannot repeat the offence. Such measures may include a refusal subsequently to issue an official certificate to the person or undertaking concerned.

B. Certificate referred to in Article 69(2)(a) of this Agreement

The health attestation in the certificate reflects the status of equivalence of the commodity concerned. The health attestation states compliance with the production standards of the exporting Party recognized equivalent by the importing Party.

C. Official languages for certification

For plants, plant products and other objects:

Certificates shall be drawn up at least in a language understood by the certifying officer and at least in one of the official languages of the country of destination.

LIST OF COMMITMENTS ON CROSS-BORDER SERVICES

(Referred to in Article 95)

EU Party

1. The list of commitments below indicates the services sectors liberalised by the EU Party pursuant to Article 95 and, by means of reservations, the market access and national treatment limitations that apply to services and service suppliers of Ukraine in those sectors. The lists are composed of the following elements:

(a) A first column indicating the sector or sub-sector in which the commitment is assumed by the Party, and the scope of liberalisation to which the reservations apply.

(b) A second column describing the applicable reservations.

When the column referred to under (b) only includes Member State-specific reservations, Member States not mentioned therein undertake commitments in the sector concerned without reservations (the absence of Member State-specific reservations in a given sector is without prejudice to horizontal reservations or to sectoral EU-wide reservations that may apply).

Sectors or sub-sectors not mentioned in the list below are not committed.

2. In identifying individual sectors and sub-sectors:

Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to investors of the other Party.

4. The list below is without prejudice to the feasibility of Mode 1 in certain services sectors and sub-sectors and without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on establishment.

5. In accordance with Article 85(3) of the Agreement, the list below does not include measures concerning subsidies granted by the Parties.

6. The rights and obligations arising from this list of commitments shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

⁽¹⁾ The *acquis* applies in its entirety, including with the exceptions granted to EU Member States during their accession process.

*Article 3***Regulatory approximation before full internal market treatment has been granted in a specific sector**

The European Union shall in accordance with Appendix XVII-6 recommend to Ukraine specific measures and determine an implementing period within which these improvements can reasonably be implemented. (b) Directives shall be implemented and enforced at the latest 3 months after the transposition period provided for in the Directive has expired, unless otherwise decided by the Trade Committee.

Ukraine shall ensure that at the end of the relevant time period, its legal order is fully compliant with the EU legal act to be implemented.

4. An assessment of the implementation will be carried out by the European Union in cooperation with Ukraine according to the principles set out in Appendix XVII-6.

5. In case Ukraine expects to face particular difficulties in transposing a new or amended EU legislative act into its domestic legislation, it shall inform the European Union and the Trade Committee immediately thereof. The Trade Committee may decide whether Ukraine can under exceptional circumstances temporarily and partly be exempted from its transposition obligations under Article 5(3) of this Annex as far as new or amended EU legislative acts are concerned. Should the Trade Committee grant such derogation, Ukraine shall report regularly on the progress reached to transpose the relevant EU legislation.

⁽¹⁾ The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as nullifying or impairing benefits under the Agreement.

6. If notwithstanding the application of Article 5(2), (3) and (5) of this Annex, agreement cannot be reached on the addition of a new or amended EU legislative to the Appendices 3 months after its notification to the Trade Committee, the European Union may decide to suspend the granting of internal market treatment in the sector concerned. In the event that the Ukraine disagrees as to the proportionality of the suspension measures either of them may resort to dispute settlement in accordance with Article 7 of this Annex. These suspension measures shall be lifted immediately once the Trade Committee succeeds, regarding new or amended EU legislative acts, in updating the relevant Appendix or finds an otherwise mutually acceptable solution to the problem.

7. When Ukraine wishes to adopt new legislation or amend its existing legislation in the sectors concerned by regulatory approximation, the reporting and assessment requirements set out in Appendix XVII-6 shall apply.

2. The Party concerned may submit to the other Party and the Trade Committee a formal request that the matter in dispute be resolved, and shall provide all relevant information required for a thorough examination of the situation.

3. Following such request, the rules and procedures of Chapter 14 (Dispute Settlement) of Title IV of this Agreement shall apply.

4. By way of derogation from Articles 312, 313 and 315(1) of Chapter 14 (Dispute Settlement) of Title IV of this Agreement, should it be found that a Party is not complying with an arbitration panel ruling and should there be exceptional circumstances requiring urgent action, the other Party shall be entitled to suspend obligations arising from Article 4(3) of this Annex immediately.

5. Such suspension measures shall be lifted immediately following full implementation of the arbitration report by the Party concerned.

By derogation from this requirement, when exceptional circumstances requiring urgent action exclude prior examination, a Party may immediately apply the protective measures strictly necessary to remedy the situation.
4. The Party concerned shall without delay notify the Trade Committee of the safeguard measures taken and shall provide all relevant information.
5. Any safeguard measure shall be discontinued once the factors leading to the adoption of that measure cease to exist.
6. The safeguard measures taken shall be the subject of continuous consultations in the Trade Committee with a view to their abolition or to the limitation of their scope of application.
7. If, notwithstanding the application of paragraph 6, no mutually acceptable solution can be found within 6 months and the safeguard measure creates an imbalance between the rights and obligations of the Parties in the sector concerned, the Party concerned may take such proportionate rebalancing measures as strictly necessary to remedy the imbalance. Priority shall be given to such measures as will least disturb the functioning of the Chapter 6 (Establishment, Trade in Services and Electronic Commerce) of Title IV of this Agreement, this Annex and its Appendices.
8. The Party concerned shall without delay notify the Trade Committee of the rebalancing measures taken and shall provide all relevant information. Any such rebalancing measure shall be discontinued immediately once the factors leading to the adoption of that measure cease to exist.

2. Any measure adopted pursuant to the provisions of paragraph 1 may not be subject to the dispute settlement procedure established under Chapter 14 (Dispute Settlement) of Title IV of this Agreement.

In order to ensure the correct application of Annex XVII, notably its Articles 2, 3, 4 and 5, the Parties and their relevant authorities and bodies shall exchange all information pertinent to the approximation to and implementation of the relevant EU legislation. The Parties will ensure full administrative cooperation.

The Parties will agree on procedures for the exchange of information, including a list of relevant authorities with a contact point for each piece of legislation covered by Appendices XVII-2 to XVII-5. Each Party is authorised to establish direct contacts with all authorities and bodies of the other Party included in the aforementioned list.

Documents submitted to the EU shall always include a version in English. The EU will communicate exclusively in English, except where decided otherwise.

2. Roadmap

Within a period of 6 months after the entry into force of this Agreement, Ukraine shall submit for each sector a detailed roadmap for the enactment and implementation of all sector-specific acts referred to in Appendices XVII-2 to XVII-5 (hereinafter, the "EU legal acts"), highlighting the possible legislative and institutional changes required, intermediate timelines and an estimate of administrative capacity needs. The roadmaps are indicative and may be adjusted.

3. Reporting and assessment

Once Ukraine is of the view that a particular EU legal act has been properly implemented, it shall inform the EU thereof. Ukraine shall transmit to the competent Commission service the internal act with a cross-comparison table ('transposition table') showing in detail the correspondence with each article of the EU legal act as well as, if applicable, a list of Ukrainian legal acts that has to be amended or annulled in order to fully implement the EU legal act.

The EU will assess Ukraine's approximation to the EU legal act on the basis of the aforementioned transposition tables, the list of Ukrainian acts to be amended or annulled and other relevant information provided in accordance with Article 1 of this Appendix. Formal assessment will be exclusively based on a comparison between the final legal acts and the specific EU legal act.

The competent Commission services will issue an assessment of the act within 12 weeks following its official transmission. This period can be prolonged once with due justification. Without prejudice to Articles 4(3) and 5(3) of Annex XVII on Regulatory Approximation, if the assessment provided for in previous paragraphs concludes that Ukraine did not approximate properly to a particular EU legal act, the EU shall issue written recommendations on the appropriate measures to ensure full consistency with the EU legal act. Upon request, these recommendations can be discussed in the Trade Committee.

The process for the formal assessment of the approximation to the EU legal act does not prejudice the assessment of the effective enactment and enforcement of the EU legal act for the purpose of Articles 4(3) and 5(3) of Annex XVII.

4. Assessment of progress in the effective enactment and implementation of EU legal acts

Ukraine shall ensure that authorities and bodies under its jurisdiction which are responsible for the effective application of the national legislation adopted pursuant to Articles 114, 124, 133 and 139 of Chapter 6 (Establishment, Trade in Services and Electronic Commerce) and Chapter 7 (Current Payment and Movement of Capital) of Title IV of this Agreement and Annex XVII in conjunction with Appendices XVII-2 to XVII-5 continuously apply and adequately enforce all legislation for which the EU's formal assessment of Ukraine's approximation efforts had previously been positive as well as all future EU legislation pursuant to Articles 3, 4 and 5 of Annex XVII.

Ukraine shall report regularly and at least twice a year on progress in the overall implementation in a certain sector and regarding the execution of the roadmap provided for in Article 2 of this Appendix. Both Parties shall agree on the exact format and contents of the reports

Progress reports shall, in line with Article 1 of this Appendix, be transmitted to the competent service of the Commission and can be discussed in special committees or bodies established in line with the institutional framework under the Association Agreement.

Ukraine shall provide adequate evidence of the effective enactment and enforcement of the EU legal acts. To that end, Ukraine shall demonstrate a sufficient administrative capacity to enforce the national legislation adopted pursuant to Articles 114, 124, 133 and 139 of Chapter 6 (Establishment, Trade in Services and Electronic Commerce) and Chapter 7 (Current Payments and Movement of Capital) of Title IV of this Agreement and Annex XVII in conjunction with Appendices XVII-2 to XVII-5 and provide a satisfactory track record of sector-specific surveillance and investigation, prosecutions, and administrative and judicial treatment of violations.

Without prejudice to Articles 4(3) and 5(3) of Annex XVII on regulatory approximation, the EU may assess the progress with on-the-spot missions, carried out with the cooperation of the competent Ukrainian authorities and may have recourse, where appropriate, to the assistance of third parties at national or international level, as well as private organizations.

General principles

Article 10 Principles of awarding contracts

⁽¹⁾ It is noted that 'bodies governed by public law' are bodies that fulfil all three conditions set out in Article 2(1)(a) of Directive 2004/17/EC. Concerning 'public undertakings', the legal presumption in Article 2(1)(b) of Directive 2004/17/EC serves to clarify the scope of application of that Directive and remains without prejudice to the commercial law of the Member States of the EU, or of Ukraine. For the purposes of Article 2(3) of Directive 2004/17/EC, 'legislative, regulatory or administrative provisions' are legal acts adopted by State, regional or local authorities and their administrations, within their competence.

⁽²⁾ According to Article 5(2) of Directive 2004/17/EC, that Directive does not apply to entities providing bus transport services to the public where other entities are free to provide those services, either in general or in a particular geographical area, under the same conditions as the contracting entities.

⁽³⁾ The references to Directive 97/67/EC in Article 6 of Directive 2004/17/EC serve the purpose of clarifying that the latter will not apply to activities relating to the provision of postal services following their liberalisation (i.e., the opening to full competition). The same should apply to Ukraine, if and when Ukraine decides to liberalise the market for postal services. It is furthermore noted that the Ukrainian Postal administration currently does not offer all of the services listed in Article 6(2)(c) of Directive 2004/17/EC, but that, if such services should be offered at a later stage, they will be covered by this Chapter.

⁽⁴⁾ For the correct application of Article 9 of Directive 2004/17/EC, guidance and assistance is provided by the Explanatory Note "Utilities Directive – Contracts involving more than one activity", which has been published by the European Commission. When adopting specific legislation to implement Article 9, Ukraine will take into account the guidance provided by that document.

⁽³⁾ Directive 83/349/EEC does not apply to Ukraine. Thus, an 'affiliated undertaking' is understood to be any undertaking the annual accounts of which are consolidated with those of the contracting entity or any undertaking over which the contracting entity may exercise, directly or indirectly, a dominant influence within the meaning of Article 2(1)(b) of Directive 2004/17/EC or which may exercise a dominant influence over the contracting entity or which, in common with the contracting entity, is subject to the dominant influence of another undertaking by virtue of ownership, financial participation, or the rules which govern it. If and where Ukraine excludes contracts from the scope of application of the present chapter pursuant to Article 23 of Directive 2004/17/EC, the notifications foreseen by that provision should be made to the Trade Committee, to a joint venture or to a contracting entity forming part of a joint venture

⁽⁴⁾ The reference to the EC Treaty in Article 25 of Directive 2004/17/EC does not directly apply to Ukrainian contracting entities. ⁽²⁾ Where, in the context of this Chapter of Directive 2004/17/EC and the relevant Annexes, reference is made to notifications to, or to publication of information by, the Commission, it is understood that Ukrainian contracting entities will address such notifications to the competent entity designed by Ukrainian law, which will then proceed to the necessary publication of the information concerned according to the rules set out in Ukrainian law. There will be one single means of publication in Ukraine responsible for the publication of all tender notices under this Chapter. In addition, Ukrainian contracting entities may publish the same information also through other means.

⁽³⁾ Under Article 41(1) of Directive 2004/17/EC, the required publication of information can take place either through the publication of a periodic indicative notice (as foreseen by Annex XV-A), or, alternatively, through a 'buyer profile' (as described in Annex XX).

BASIC ELEMENTS OF COUNCIL DIRECTIVE 92/13/EEC⁽¹⁾ OF 25 FEBRUARY 1992 COORDINATING THE LAWS, REGULATIONS AND ADMINISTRATIVE PROVISIONS RELATING TO THE APPLICATION OF COMMUNITY RULES ON THE PROCUREMENT PROCEDURES OF ENTITIES OPERATING IN THE WATER, ENERGY, TRANSPORT AND TELECOMMUNICATIONS SECTORS (HEREINAFTER REFERRED TO AS "DIRECTIVE 92/13/EEC") AS AMENDED BY DIRECTIVE 2007/66/EC**(PHASE 3)**

- Article 1 Scope and availability of review procedures
- Article 2 Requirements for review procedures⁽²⁾
- Article 2a Standstill period
- Article 2b Derogations from the standstill period
- Paragraph (b)
- Article 2c Time limits for applying for review
- Article 2d Ineffectiveness⁽³⁾
- Paragraph 1 (b)
- Paragraph 2 and 3
- Article 2e Infringements of this Directive and alternative penalties
- Article 2f Time limits

⁽¹⁾ For the purpose of this Agreement, it is clarified that the objective of legislative approximation to Directive 92/13/EEC consists in ensuring the availability of appropriate remedy procedures for contracts falling within the scope of this Agreement. Therefore, references in Directive 92/13/EEC to "contracts referred to Directive 2004/17/EC" or "contracts falling within the scope of Directive 2004/17/EC" shall be understood as references to the contracts covered by this Agreement, and references to "infringements of Community law" shall be understood as meaning infringements of this Agreement. Where Directive 92/13/EEC makes reference to the publication of a tender notice or a contract award notice in the Official Journal of the EU, such reference, in the case of Ukraine, shall mean the publication in the appropriate Ukrainian media. It is also understood that Ukraine may use all the flexibilities set out in Directive 92/13/EEC.

⁽²⁾ Article 2(1) of Directive 92/13/EEC offers a choice of implementing either the measures foreseen in subparagraphs (a), (b), and (d), or – alternatively – the measures foreseen in subparagraphs (c) and (d) of that provision. Ukraine has indicated its intention to use the first option, given that the current state of legislation does not allow using the second. However, Ukraine reserves the right to use the second option at any later stage.

⁽³⁾ Concerning the finding that a contract be considered ineffective according to Article 2d of Directive 92/13/EEC, it is noted that, in conformity to Article 2(2) of the same Directive, Ukraine may confer powers on separate bodies responsible for different aspects of the procedure, including to the judiciary branch. However, in order to meet the requirement of effectiveness, the responsible bodies must be enabled to take such decisions in an expeditious manner, e.g. through an accelerated procedure. It is further noted that the obligation to foresee review procedures relating to procurement made under framework agreements and/or dynamic purchasing systems is conditional on Ukraine deciding to make use of these procedures; at the same time, it should be noted that the present Agreement does not oblige Ukraine to use framework agreements and/or dynamic purchasing systems.

ANNEX XXI-F TO CHAPTER 8

OTHER NON-MANDATORY ELEMENTS OF DIRECTIVE 2004/18/EC**(PHASE 4)**

(The elements of Directive 2004/18/EC set out in Annex XXI-F are not mandatory. It is therefore up to Ukraine to decide whether it wants to implement these elements, and whether it wishes to do so within the timeframe set out in the time schedule. The EU, from its side, recommends the implementation of these elements.)

⁽¹⁾ In the case set out in Art 67(2)(b) of Directive 2004/18/EC, the rules governing design contests (Title IV) do not apply if the prizes and payments are below the thresholds defined in Article 149(3) of the Chapter on Public Procurement of this Agreement and the contest notice excludes the award of a public service contract subsequent to the contest. However, these rules do apply in cases where a prize is awarded to the winner of the contest and the contest notice does not exclude the award of a public service contract subsequent to the contest, if the combined value of the prize and the contract exceeds these thresholds. The rules also apply when no prize is awarded but the value of the subsequent contract is expected to exceed the thresholds in Article 149(3) of the Chapter on Public Procurement of this Agreement.

⁽²⁾ It is clarified that the contracting authority is not prevented from forming a jury that includes, or consists of, its own employees, provided that those employees fulfill the criteria set out in Article 73 of Directive 2004/18/EC (i.e., that they are independent of participants in the contest and dispose of the necessary qualifications).

ANNEX XXIII TO CHAPTER 10

GLOSSARY OF TERMS

The following glossary is intended to illustrate the meaning of certain terms used in Chapter 10 (Competition) of Title IV of this Agreement. This glossary is not legally binding and remains without prejudice to the provisions included in this Chapter.

- (a) Areas where the standard of living is abnormally low or where there is serious underemployment: These are areas where the economic situation is extremely unfavourable in relation to the European Union as a whole. This condition is fulfilled if a region or a sub-national geographical administrative entity, with an average population of approximately 800,000 to 3,000,000 inhabitants, has a per capita gross domestic product (GDP), measured in purchasing power standards (PPS), of less than 75 % of the Union average.
- (b) Serious disturbance: The disturbance in question must affect the whole of the economy of the Party concerned, or one of its Member States. A disturbance is deemed not to be serious for the purposes of this section if it is limited to one of the Parties' regions or parts of their territories.
- (c) Service of general economic interest ("SGEI"): This means economic activities that public authorities identify as being of particular importance to citizens and that would not be supplied (or would be supplied under different conditions) if there was no public intervention. The activity must exhibit special characteristics as compared with the general economic interest of other economic activities.
- (d) Public undertakings: Any undertaking over which the public authorities may exercise directly or indirectly a dominant influence by virtue of their ownership of it, their financial participation therein, or the rules which govern it.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.
2. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Article 10

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 11

Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

Article 12

Principle of territoriality

1. Except as provided for in Articles 3 and 4 of this Protocol and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the European Union or in Ukraine.

2. Except as provided for in Articles 3 and 4 of this Protocol, where originating goods exported from the European Union or from Ukraine to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

(a) the returning goods are the same as those exported;

and

(b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II of this Protocol shall not be affected by working or processing done outside the European Union or Ukraine on materials exported from the European Union or from Ukraine and subsequently re-imported there, provided:

(a) the said materials are wholly obtained in the European Union or in Ukraine or have undergone working or processing beyond the operations referred to in Article 7 of this Protocol prior to being exported;

and

(b) it can be demonstrated to the satisfaction of the customs authorities that:

(i) the re-imported goods have been obtained by working or processing the exported materials;

and

(ii) the total added value acquired outside the European Union or Ukraine by applying the provisions of this Article does not exceed 10 per cent of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II of this Protocol shall not apply to working or processing done outside the European Union or Ukraine. But where, in the list in Annex II to this Protocol, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the European Union or Ukraine by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying the provisions of paragraphs 3 and 4 of this Article, 'total added value' shall be taken to mean all costs arising outside the European Union or Ukraine, including the value of the materials incorporated there.

6. The provisions of paragraphs 3 and 4 of this Article shall not apply to products which do not fulfil the conditions set out in the list in Annex II to this protocol or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) of this Protocol is applied.

7. The provisions of paragraphs 3 and 4 of this Article shall not apply to products of Chapters 50 to 63 of the Harmonized System.

8. Any working or processing of the kind covered by the provisions of this Article and done outside the European Union or Ukraine shall be done under the outward processing arrangements, or similar arrangements.

Originating products may be transported by pipeline across territory other than that of the European Union or Ukraine.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

(a) a single transport document covering the passage from the exporting country through the country of transit; or

(b) a certificate issued by the customs authorities of the country of transit:

(i) giving an exact description of the products;

(ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;

and

(iii) certifying the conditions under which the products remained in the transit country; or

(c) failing these, any substantiating documents.

Article 14

Exhibitions

1. Originating products, sent for exhibition in a country other than the European Union and Ukraine and sold after the exhibition for importation in the European Union or in Ukraine shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:

(b) the products have been sold or otherwise disposed of by that exporter to a person in the European Union or in Ukraine;

(c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;

and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Title V of this Protocol and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the European Union or in Ukraine to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

If they are hand-written, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. A movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the European Union or of Ukraine if the products concerned can be considered as products originating in the European Union or in Ukraine and fulfil the other requirements of this Protocol.

5. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 of this Article are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7) of this Protocol, a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances;

or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.
3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

"DUPLICATE"

3. The endorsement referred to in paragraph 2 of this Article shall be inserted in the "Remarks" box of the duplicate movement certificate EUR.1.

When originating products are placed under the control of a customs office in the European Union or in Ukraine, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the European Union or Ukraine. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

Article 21

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method to be used for managing such stocks.
2. This method must be able to ensure that, for a specific reference-period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained if there had been physical segregation of the stocks.
3. The customs authorities may grant such authorisation, subject to any conditions deemed appropriate.

4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.
5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.
6. The customs authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

Article 22

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) of this Protocol may be made out:

 - (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6,000.
2. An invoice declaration may be made out if the products concerned can be considered as products originating in the European Union or in Ukraine and fulfil the other requirements of this Protocol.
3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is hand-written, it shall be written in ink in printed characters.
5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 of this Protocol shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.
6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 23

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter, hereinafter referred to as 'approved exporter', who makes frequent shipments of products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.
4. The customs authorities shall monitor the use of the authorisation by the approved exporter.
5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1 of this Article, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 24

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 of this Article may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 26

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1,200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(3) of this Protocol used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the European Union or in Ukraine and fulfil the other requirements of this Protocol may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in the European Union or in Ukraine where these documents are used in accordance with domestic law;

4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 31

Amounts expressed in euro

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) of this Protocol in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the European Union and of Ukraine equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) of this Protocol by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Customs Sub-Committee at the request of the European Union or of Ukraine. When carrying out this review, the Customs Sub-Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE CO-OPERATION

Article 32

Mutual assistance

1. The customs authorities of the Member States of the European Union and of Ukraine shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.

2. In order to ensure the proper application of this Protocol, the European Union and Ukraine shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 33

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1 of this Article, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the European Union or in Ukraine and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 34

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 33 of this Protocol which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Trade Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

Article 36

Free zones

1. The European Union and Ukraine shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1 of this Article, when products originating in the European Union or in Ukraine are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

ANNEX I

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of this Protocol.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

- 3.1. The provisions of Article 6 of this Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a contracting party.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading ex 7224.

If this forging has been forged in the European Union from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the European Union. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading" or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term "natural fibres" includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,

- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.

- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

- 7.2. For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;

- (i) isomerisation;
 - (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur-content of the products processed (ASTM D 1266-59 T method);
 - (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
 - (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
 - (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
 - (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
 - (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0,75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

Article 5

Delivery, Notification

At the request of the applicant authority, the requested authority shall, in accordance with legal provisions applicable to the latter, take all necessary measures in order:

- to deliver any documents; or
- to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

*Article 6***Form and substance of requests for assistance**

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.
2. Requests pursuant to paragraph 1 of this Article shall include the following information:
 - (a) the applicant authority;
 - (b) the measure requested;
 - (c) the object of and the reason for the request;
 - (d) the legal or regulatory provisions and other legal elements involved;
 - (e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations;
 - (f) a summary of the relevant facts and of the enquiries already carried out.
3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1 of this Article.
4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be ordered.

*Article 7***Execution of requests**

1. In order to comply with a request for assistance, the requested authority shall at the request of the applicant authority proceed, within the limits of its competence and available resources, by supplying information already possessed, by carrying out appropriate administrative enquiries concerning operations which constitute, or appear to the applicant authority to constitute, breaches of customs legislation or by arranging such enquiries to be carried out.

The requested authority or the other competent authority to which it has recourse shall conduct administrative enquiries as though acting on its own account or at the request of another authority of that same Party.

The requested authority shall communicate the results of such administrative enquiries to the applicant authority.

2. If the requested authority is not the appropriate authority to comply with a request for assistance, it shall transmit the request to the competent authority, and seek the cooperation of that authority. In such case, provisions of this Protocol will be applicable to that authority *mutatis mutandis*. The applicant authority shall be so advised.
3. Requests for assistance shall be executed in accordance with the relevant legislation of the requested Party.
4. By agreement between the applicant authority and the requested authority and subject to the conditions laid down by the latter, officials appointed by the applicant authority may be present at the administrative enquiries referred to in paragraph 1 and have access to the same premises and the same documents as the requested authority to obtain information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.

*Article 8***Form in which information is to be communicated**

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.
2. This information may be in computerised form, unless requested otherwise by the applicant authority.
3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

*Article 9***Exceptions to the obligation to provide assistance**

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:
 - (a) be likely to prejudice the sovereignty of Ukraine or that of a Member State of the European Union which has been requested to provide assistance under this Protocol; or
 - (b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2) of this Protocol; or
 - (c) violate industrial, commercial or professional secrets protected by law.
2. Assistance may be postponed by the requested authority on the ground that it will interfere with an on-going investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.
3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.
4. For the cases referred to in paragraphs 1 and 2 of this Article, the decision of the requested authority and the reasons therefore must be communicated to the applicant authority without delay.

*Article 10***Information exchange and confidentiality**

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party that received it and the corresponding provisions applying to the authorities of the EU Party.
2. Personal data may be exchanged only where the Party which may receive them undertakes to afford such data an adequate level of protection in accordance with the standards and legal instruments referred to in Article 15 of Title III Justice, Freedom and Security of this Agreement.
3. The use, in judicial or administrative proceedings instituted in respect of breaches of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

The Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

Article 13

Article 14

Other agreements

1. Taking into account the respective competencies of the European Union and the Member States, and without prejudice to the provisions of paragraph 2 of this Article, the provisions of this Protocol shall:

- not affect the obligations of the Parties under any other international agreement or convention, including bilateral Agreements on mutual assistance which have been or may be concluded between individual Member States and Ukraine;
- be deemed complementary to Agreements on mutual assistance which have been or may be concluded between individual Member States and Ukraine;
- not preclude more extensive mutual assistance which may be granted under such Agreements; and shall
- not affect the European Union provisions governing the communication between the competent services of the European Commission and the customs authorities of the Member States of the European Union of any information obtained under this Protocol which could be of interest to the European Union.

2. The provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States of the European Union and Ukraine insofar as the provisions of the latter are incompatible with those of this Protocol.

Article 15

Consultations

In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Customs Sub-Committee set up under Article 83 of Chapter 5 (Customs and Trade Facilitation) of Title IV of this Agreement.
